#### ✓ Conference Rooms

IBSC has 3 conference rooms available for free of charge, making it more convenient for you to have meetings with business partners.

#### ✓ Business Library

The JETRO Business Library Osaka boasts approximately 150,000 publications and commercial databases devoted to international business. Visitors have free access to a wide range of collection including statistics, laws and regulations, and Japanese business directories by industrial category. In addition, the Library holds useful materials categorized by country as well as foreign journals and newspapers, which are useful for building strategies to start overseas business based in Kansai.

## ✓ Consultation Services

### **Company establishment, residence status and visa**

IBSC users can receive free consultation from experts such as judicial scriveners (company registration), administrative scriveners (residency and visa application), tax accountants (taxation), and social insurance labor consultants (human resource management). Upon request, JETRO will introduce these specialists who do the actual procedure of filing legal paperwork and applications on behalf of your company.

### **Staff recruitment**

In collaboration with recruiting firms, JETRO will support you to find local staff such as a representative in Japan, marketing representatives, accountants, or engineers. We can also arrange interviews between you and candidates.

### **Office locations & industrial sites**

JETRO can list properties that meet your needs using the network with real state agencies. In addition, local governments will help us provide you with industrial site information.

### **Information on incentives & relevant laws**

Using the network with local and national governments, JETRO offers helpful information such as tax preference or subsidies, which you can make use of when establishing Japan office. We also help you identify licenses and laws to be required or applied when your company is entering the Japanese market. In order to further discuss the details, we are able to make meeting arrangements with national or local government officers.

### **Others**

In addition, you can receive a wide range of consultation services related to the Japanese market, cost estimates, PR support, networking with business partners in Kansai, and business-related advice.
