4	KARAW	Founded in 2017, KARAW INTERNATIONAL Laboratory specializes in the design, production, and distribution of natural and organic cosmetics. Founded by Ms. Diarietou Dia, who holds a Master's degree in Banking Law and a Master's degree in Finance, her expertise reinforced by a training program in Cosmetology, Hygiene, and Quality. Her entrepreneurial decision stemmed from the recognition of a lack of natural products on the local market to treat hair loss and dandruff. KARAW INTERNATIONAL Laboratory, eager to meet growing demand, is also committed to exporting. By exporting high-quality natural and organic cosmetic products derived from the richness of African flora, the company helps promote its values internationally while promoting fair trade.		https://ecommerce.paydunya.com/karaw-internationalK?wixM	Search for distributors, raw material suppliers, packaging Meeting with Wholesalers, Distributors; Wholesaler Distributors in Pharmacy; Cosmetics Laboratories and Sector; Exchange with suppliers of inputs and packaging; Needs for Innovation Partnership; Partnership with specialist distributors	
5	KSS GROUPE	KSS Groupe SA is a Senegalese holding company founded in 2012, focused on the Senegalese and sub-regional economy. It has over 12 years of experience in exporting fresh fruit and vegetables to Europe, as well as in textiles. The group operates mainly in three areas: Integrated Agricultural Farm: An 18-hectare agro-industrial project located between Pire and Tivouane (Thiès region). This farm combines intensive market gardening (onions, chilies, watermelons, tomatoes, melons, papayas, Kent mangoes), poultry farming, cattle fattening and fish farming. The aim is to produce high-quality local food, create jobs for young people and women, and contribute to food sovereignty. Construction Equipment Manufacturing Plant: KSS Group is committed to the industrialisation of construction in Senegal in partnership with BT Innovation and MAX-truder. The plant mass-produces prefabricated elements (hollow core slabs and wall panels) to reduce construction time and costs, improving the quality of buildings and employing local labour. Textiles: KSS Textile has over five years of experience in importing and distributing quality fabrics in Senegal and the sub-region through its own network and internationally renowned partners. The group's strategic objectives are aligned with Senegal's economic, social and environmental development, aiming to create sustainable jobs and modernise sectors of activity.		https://kssgroupe.com/	Business relations with fruit and vegetable buyers Discover the latest technologies and equipment used in agri-food processing; Find export opportunities for agricultural products; Identify new opportunities in processing, market trends in agri-food products and opportunities for diversification.
