

# [Medical & Healthcare] Ryobi Systems Co., Ltd.

<https://www.ryobi.co.jp>

- ❑ Location: Okayama City, Okayama Prefecture
- ❑ Number of employees: 1460
- ❑ Established in 1969
- ❑ Business: Software and information services

## Outline of the demonstration project

- Provision of health-management platforms by leveraging Personal Health Record infrastructure

## Cooperation with local companies/governments

- Local partners: AMZ Group Co., Ltd.  
(Liaison with local organizations, support for local surveys)

## Targeted economic/social issues and solutions

- Demand for health management and medical checkups will increase in Laos, reflecting a rising awareness of health mainly among the wealthy population. Also, the impact of COVID-19 has amplified the importance of collecting accurate health information of individuals and increased the need for the post-COVID-19 measures using past health information for health maintenance and therapies.
- Using an IT-enabled health management platform (PHR: Personal Health Record), monitor individuals' health records regularly, extend a healthy lifespan, and establish a stable lifestyle without health concerns.
