Project name

■ Demonstration project related to the improvement of pre-symptomatic diseases using the AI healthcare app

Cooperation with local companies/governments

- Local partners: Pulse Active Stations Network, INFOBRIDGE INDIA Pvt. Ltd.
- Details of cooperation and collaboration: Joint marketing and customer development with local start-up companies developing health measurement services for citizens.

Local economic/social issues

- The number of patients with lifestyle-related diseases and those in the pre-symptomatic condition, who are at risk to be the patients, is rapidly increasing, and it is extremely important to prevent them.
- The number of diabetic patients is expected to be the second worst in the world in 2030.
- Medical costs at the time of illness have a huge impact on the household finances of the low-income group.

Details of demonstration

- Developing lifestyle improvement apps for India and conducting market researches and marketing of the system with local start-up companies, we will carry out demonstration for its launch.

Expected outcome

- Contribution to the improvement of pre-symptomatic diseases and prevention of lifestyle-related diseases in India.
- Revitalization of the healthcare market in India.
