

SORA Technology Co., Ltd.

<https://sora-technology.com/>

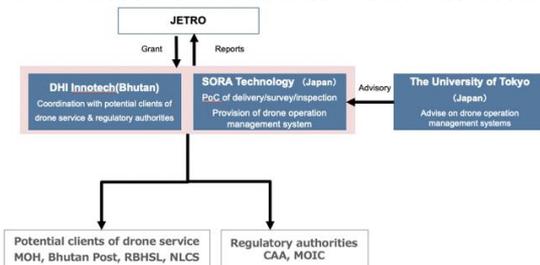

- Address: Nagono Campus, 2-14-1 Nagono, Nishi-ku, Nagoya City, Aichi Prefecture, Japan
- Employees: 7
- Established in 2020
- Business: Business conceptual design/operation/consulting especially for delivery services using drones and flying vehicles

Project Name

Demonstration for drone logistics and drone platforms in the mobility sector (Bhutan)

Cooperation with Local Companies

In cooperation with DHI Innotech, a state-owned investment company, We develop the logistics business and the environment and systems necessary for drone operations.

Local Economic / Social Issues

- Mountainous conditions in the country make it difficult to secure a stable logistics network due to collapsing mountain slopes during the rainy season.
- Severe unemployment due to lack of a solid economic foundation.

Details of Demonstration

- PoC will be conducted this fall, based on MoUs signed with CAA, MOIC & DHI Innotech.
- Demonstrate the business probability of building a drone logistics network and its operational environment.

Expected Outcome in the Future

- Will promote DX in a variety of sectors centered on logistics, as improving environment for drone operations.
- Will build a strong industry base that is competitive with neighboring countries, and contribute to improving the employment situation.
