Product Introduction / 商品介紹

Water is the main ingredient in skincare. Creams typically contain 60 to 80% purified water and lotions up to 90%, mainly to dissolve beauty ingredients. EFSEVEN replaces purified water with reducing ionized water offering beauty benefits. This makes 100% of the formula beauty functional, delivering multifunctional skincare of high quality.

水是護膚品中用量最多的原料。一般面霜的純化水含量約為 60 ～ 80%，爽膚水則最高可達 90%，主要用於溶解美容成分。EFSEVEN 以具有美容功效的還原性離子水取代純化水，透過 100% 美容成分配方，打造兼具多重功效與高品質的護膚產品。
