<ITEM1>

BUKU138

Retail price in Japan : ¥ 400 (Excluding tax)

Size: W 14cm x D 8cm x H 4cm

Weight: 120g

Company Profile

Established in 1977 as a fishing equipment manufacturer.

In 1995, we launched the battery type small air pump dedicated for live fish transportation to keep it alive and very fresh from the local fishing place to the fish market in the big city.

Since then, our sales volume has been increasing and hit over 400,000 units annual basis.

Products/ Concept

We can supply a variety of fishing equipment except fishing rods, reels and fishing lines.

Our main products are Air Pumps and Landing Nets.

We always strive to supply the Fishing Equipment as convenient and useful for all the people

who enjoy fishing and professional fish/seafood suppliers according to our motto

"Cheap but Good".

BUKU126

Retail price in Japan : ¥ 400 (Excluding tax)

Size: W 14cm x D 8cm x H 4cm

Weight: 132g

(Note: The batteries in the photograph are sold separately.)

Air stone feature**[Air stone cylinder]** (standard feature)Approx.
7g

Takes up minimal space and provides small air bubbles to keep tank aerated. (Recommended for prawns, crabs, etc.)

[Plastic stone] (Plastone)Approx.
21g

Heavier than a cylinder stone, this stone does not easily float. Its plastic casing means it is soft to the touch and will not cause flounder, sea perch and other groundfish to scrape their underbellies. Air bubbles are not small but are less of a drain on battery life, meaning this device can remain in continuous use for an extended period of time.

Company Profile

Daiyo was established in the Takashima county of Shiga Prefecture in 1914. The artisanship has been passed down across four generations, polished and refined as time passes. Daiyo's Japanese candles are 100% made from natural plant wax. Our principles of making candles from the blessings of nature have remained unchanged since our establishment more than a century ago.

Products/ Concept

At Daiyo, utilizing 100% local and natural plant wax, our artisans meticulously craft our candles by hand. By using a sustainable resource, our Japanese candles made for home-use do not produce smoke nor does the melted wax flow out of the candle. Our candles are practically odorless too. Environmental-friendliness is the greatest feature of Daiyo's Japanese candles.

Handpainted Kaga Yuzen Super Organza shawl

Retail price in Japan : ¥ 48,000 (Excluding tax)

Size: W 38cm x D 16cm x H 3cm

Weight: 160g

Company Profile

1973 Apprenticed to Yasuji TSURUMI, the Kaga-Yuzen Kimono Artist.

1987 Established "hisatsune YUZEN".

1990 Dedicated a decorative cloth for Cabinet to Crown Princess Masako.

2014 Participated in an exhibition and buyers meeting at MuseumsQuartier Wien.

2015 Participated in an event "YUKIDOKE FESTIVAL" at Globus Washitsu in New York City.

Dedicated a fabric frame dyed with SAKURA to Oyama Shrine in Kanazawa.

Products/ Concept

Kaga Yuzen is best known for its kimonos on fabric, but we wanted them to be more familiar to our customers--thus creating lamps, screens, plates, tumblers--for daily use, utilizing all sorts of materials such as wood, glass and gold leaf.

This way, we hoped the Kaga Yuzen to be much better acquainted to all.

Weight: 140g

Company Profile

Mutenka-sekken has been able to celebrate its 64th anniversary this year.

Our small soap factory started in 1955 in Kobe, where we have been manufacturing soap by the traditional cauldron-burning method "water-burning saponification method" to burn raw oil and naturally dry it for a long time.

Products/ Concept

The soap is slowly burned and dried naturally for a long time and contains rich natural moisturizing ingredients and vitamins in the oil of the material. This is why your skin will feel exceptional after washing. Because we are making a soap by burning up the whole natural ingredients, we have made this soap without using preservatives and other quality stabilizers, chemical fragrances, or chemical dyes. We are committed to using natural materials that easily decompose waste water from baths, etc., and we aim to make our products environmentally friendly even after use.

<https://www.antifungal-deodorizer.com>

<ITEM1>
Versatile Type
Retail price in Japan : ¥ 1,027 (Excluding tax)
Size: W 11.2cm x D 1.5cm x H 16cm
Weight: 49g

Company Profile

We have been engaged in the sale of chemicals and laboratory equipment since 1948. We were founded with the goal of contributing to the development of science and technology.

In the year 2000, we began developing antibacterial and anti-mold sheets. After eight years of development, we successfully developed the Nioitori sheets as a saleable product.

Products/ Concept

Nioitori is a sheet-based product that excels at deodorizing and preventing the formation of bacteria and mold. By placing it or hanging up, it will effectively neutralize odors. Do away with bacteria and pesky odors, all while keeping mold at bay.

We know that there are people everywhere who struggle to fight back against the oppressive effects of mold and unpleasant odors. We manufacture and sell this product with those people in mind, and hope they will see just how effective it is. By improving people's lives, we aim to contribute to society at large. That is both our dream and our mission.

Products/ Concept

We have the concept that living with a brush. It is a brand of brushes that we want our customers to find a relaxing time in their daily lives by proposing brushes that are familiar to their daily lives.

Company Profile

We were founded in Taisho 14 and have been manufacturing with just a brush while protecting old history and traditional techniques. At the time of its founding, it had a small factory behind Noda's house in Osaka, working in the cottage industry. At first, it started with the work of implanting hair into a wooden handle. Since then, in order to meet the needs of our customers, we have increased the process up to completion of the brush one by one. We are the only company in Japan that manufactures wooden brushes from the procurement of materials such as wood and animal hair to finished products.
