Fujitsu

Co-creation to advance business and society

March 5th/6th, 2019

Tatsuki Araki
Senior Business Architect
Fujitsu Intelligence Technology

The world needs more **computing power.**
But there is a **limit to current computing.**

- Wave of digital transformation.
- Exponential growth of data.
- Moore's law is ending.
- Massive power consumption.

Should we wait until we get “beyond-our-wildest-dreams” computer?

...> **NO**

- Customers cannot wait for it.
- They need “it” TODAY.
 - Businesses have challenges on their production line.
 - Businesses need to optimize their energy solutions.
 - People having trouble in traffic congestion.
 - And so on...

Digital Annealer solves complex problems previously unsolvable.

- Adaptable: Integrates into operating environment.
- Efficient: No need for advanced cooling solutions.
- Available: TODAY

Fujitsu commits:

- Widely permeate strong technologies.
- Create industry best-of-breed solutions.

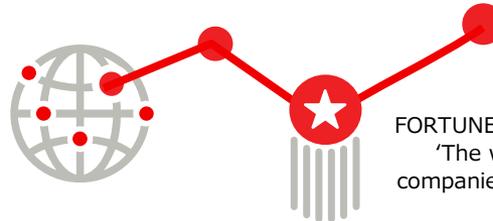

Fujitsu believes:

Co-creation to advance business and society.
