Rattan

Selling point

This is the model that can be said to be synonymous with our company, YMK Nagaoka. It is one of the greatest masterpieces designed by a renowned industrial designer, Isamu Kenmochi and was added to the permanent collection of the MoMA, NY.

The chair was originally designed for the lounge at the Hotel New Otani which played a pioneering role in Japanese hotel business.

Compared with the other models, this model is designed wider for even westerners with a large physique to enjoy sitting comfortably with a feeling of been wrapped up by the chair.

This is the feeling you can appreciate the Japanese craftsman created by carefully weaving the strings of rattan one by one.

Selling point

This chair was designed by a renowned industrial designer, Katsuhei Toyoguchi.

It is uniquely designed with the seat spreading out in a radial pattern accompanied by the beautiful backrest. Fine rattan was carefully bent and crafted by the Japanese craftsman to give you at most comfort to your back. It may fit to any surroundings due to a lowered seat design.

Selling point

Both durable and light, Rattan conforms to the curves of your body the more you use it — the perfect material for beds. It is also highly breathable, allowing for comfortable use in all seasons. The bed is divided into two parts, making it easy to move and store too.
