Selling point

"Tatsu Gold" awamori with its attractive, gold label is a brand that really stands out. The awamori is made from hard water from the Kin Okawa water system. This helps to produce the brand's mild alcohol content of 25% while retaining the flavor of koshu (old liquor). In Okinawa, the mild taste is popular among women and is recommended for those who are starting out with awamori. You can enjoy the deliciousness straight, on-the-rocks, with a splash of

Flavor

Mild alcohol content, yet retains the flavor of koshu (old liquor)
