

---

**C-Stamp**

---

# What is a C-Stamp?

- ✓ Use of **patented electrostatic capacity technology**
- ✓ Embedded with an **electric circuit with patterned electrodes** on the bottom face covered with protective material
- ✓ **Capacitive touch panels respond and corresponding contents are displayed** by holding the handle of the stamp between bear fingers, placing the stamp on the panels (1<sup>st</sup> step) and then pressing the stamp down (2<sup>nd</sup> step) [the electrodes are electrically connected with the human finger via the conductive handle]
- ✓ **Runs without a power supply** and thus there is no limit as to where it can be used (**off-line use**)

## Benefits are...

- ✓ **High data confidentiality**
- ✓ **Operational ease**

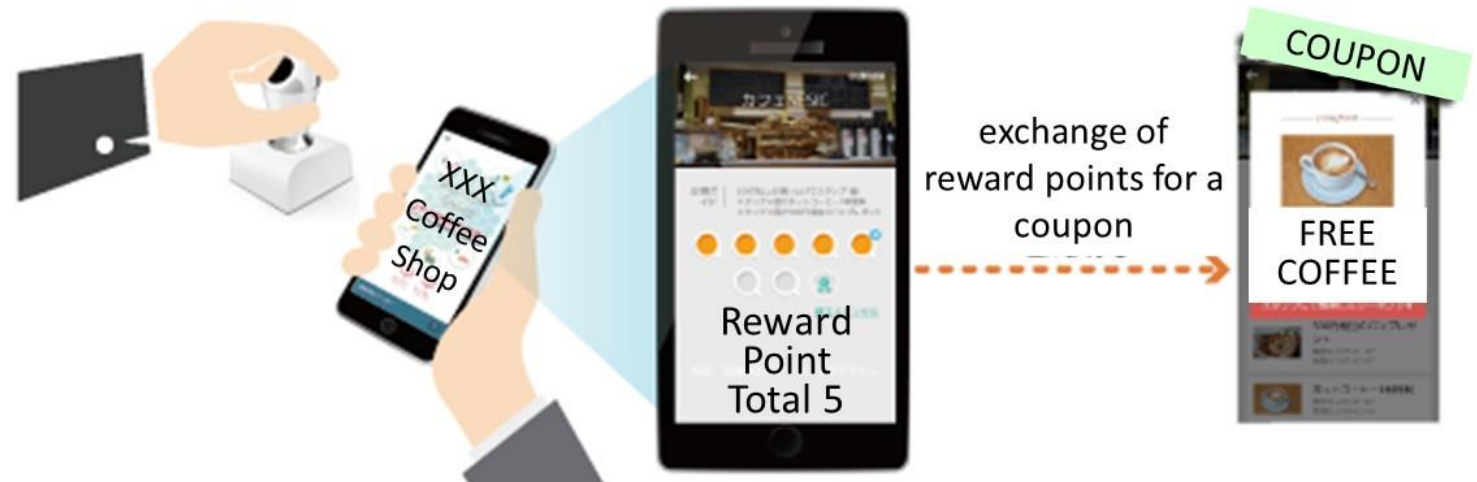

C-Stamp

# C-Stamp (Electronic Stamp) th Domestic Market

## Examples

### Plus Zone/Stamp

by NEC Networks & System Integration Corp.

### Wallabee Digital Ticket platform

by So-net Media Networks  
(in collaboration with NEC NSIC and JR East)

Stamp rally event  
by Atré Omori  
(commercial facility)  
(in collaboration with NEC NSIC)
