RYUTSU SERVICE CO., LTD.

株式会社 流通サービス

Delivers organically grown green tea picked and packed in the farm. It is the only company in Japan that sells tea that is also farmed and manufactured. Will deliver authentic green tea at a reasonable price. There are also tea plantations and factories tours available.

FUJI MATCHA

Fuji-matcha is made of pesticide-free tea leaves we cultivate. The tea leaves as raw materials for Fuji-Matcha are carefully and gradually grinded by the stone-mill to prevent friction heat.

Premium GYOKURO

Only 0.8% is Gyokuro. And organically grown Gyokuro is even less. This Gyokuro is left in shade for more than 20 days to bring out the umami in the tea leaves. Has a beautiful blue hue, with a good balance of umami, sweetness and aroma.

HANAZONO SOUGYOU CO., LTD.

Exports sweet and delectable giant ripe strawberries from Japan to all over the world.

Strawberries

(large and ripe strawberries, transported contactless)

Giant luxurious strawberries are delivered from organic farmer in Tochigi. The farmer also grows other produces including premium Japanese pears and rice. Contactlessly packed and are free from any damages or germs. Best before within 2 weeks whilst they are at their sweetest.

The miracle is created by Tochigi's technology, the self-propelled harvesting robot. The process is all automated and it sensors fully ripened fruits and cut off from vines. Fruits come in a special plastic container that withstands from a drop from 2m height during air transport to prevent bruising and guarantees optimum shelf-life.

JAPAN WAGYU BEEF EXPORT PROMOTION COMMITTEE

JAPAN'S GENUINE WAGYU BEEF - the Ultimate Delicacy -

It is only Japan's genuine Wagyu Beef that has the ultimate 'texture', 'flavour', and 'aroma'.

Unlike all other beef, (1) Japan's Wagyu is unique for (a) the finest texture, and (b) the highest grade marbling within the muscle fibre, whose melting point is as low as human body temperature, so that Wagyu immediately melts in the mouth, releasing the rich and sweet 'Wagyu aroma' that is suggestive of coconut and peach. (2) More than half of genuine Wagyu's finely distributed marbling is healthy unsaturated fatty acid, just as in olive.

Japan's Wagyu opens new dimension in all of your five senses.

Proof of Japan's Genuine Wagyu

To certify the unrivaled quality of Japan's Genuine Wagyu, WAGYU mark is attached.

Only Genuine Wagyu bears this trade mark issued by Japan Beef Export Promotion Committee.

JETRO, or the Japan External Trade Organization, is a government-related organization that works to promote mutual trade and investment between Japan and the rest of the world. Originally established in 1958 to promote Japanese exports abroad, JETRO's core focus in the 21st century has shifted toward promoting foreign direct investment into Japan and helping small to medium size Japanese firms maximize their global export potential.

All information in this publication is based on the exhibitors' declaration and verified to the best of JETRO's ability. However, JETRO does not accept responsibility for any loss or damage arising from any reliance on it.
