tatsuya.n@minnapad.com

B2B SaaS, Ecommerce

MECHLYNX

Mechlynx equips local businesses with the power to compete with it's SaaS bicycle shop management platform. Through its "virtual warehouse," Mechlynx gives its clients the logistics infrastructure and economies of scale of the largest ecommerce companies.

Contact: Jordan Scott
jordan.scott@mechlynx.com

AI,
Enterprise software

ONE ACT, INC.

PieceX is the world's first AI-powered source code marketplace. Global distribution of enterprise-level source code will revolutionize the traditional software development process, enabling anyone around the world to access high-quality source code to rapidly develop new services.

Contact: Yusuke Asano
asano@oneact.jp

Sustainability &
Upcycling

PEEL LAB

PEEL Lab Inc is a B2B GreenTech manufacturing plant based leather from leftover pineapple leaves. Our mission is to upcycle food loss, prevent animal cruelty and reduce carbon emissions.

Contact: Jim Huang
info@peel-lab.com

Sustainability &
Cleantech

SOCIOUS INC.

Socious is a talent marketplace that makes impact work accessible and transparent. We connect purpose-driven professionals with impact organizations through AI matching. We use blockchain to make impact work traceable and reward contributions.

Contact: Seira Yun
yun@socious.io

AI

GIGALOGY INC.

Gigalogy Inc. provides a SaaS solution using our own AI and Large Language Models (LLMs) that transforms E-Commerce businesses by enhancing product discovery, improving user engagement, revenue growth and brand loyalty.

Contact: Mosleh Uddin
mosleh@gigalogy.com

Drone, AI,
Global Health

SORATECHNOLOGY CO.,LTD.

SORA Technology is revolutionizing global health by utilizing advanced fixed-wing drones and AI in West Africa through partnerships with governments and research institutions. The flagship anti-malaria service employs drone and AI surveillance to pinpoint high-risk breeding sites, optimizing larvicide application.

Contact: Masaki Umeda
masaki.umed@sora-tech.com

Manufacturing

CROWDCHEM, INC.

CrowdChem Co., Ltd. develops and operates a data platform to promote sales and development activities in the chemical industry. By Collecting and linking patent and catalog data, we can clarify what kind of combination of raw materials should be used for product development and where to sell your company's products.

Contact: Hisaki Ikebata(Dr.)
h-ikebata@crowdchem.net

SALLY, INC

Entertainment

Sally, Inc operates "UZU," a platform where users can create and play "Madamis," conversational mystery games where players become characters and solve cases. UZU allows anyone to post content and earn revenue, boasting over 100,000 registered users acquired organically without advertising.

Contact: Eitaro Hiraishi
hiraishi@sally-inc.jp

Sports Tech

SANDBOX, INC.

SandBox, Inc. is proud to introduce our sensor-equipped heavy bag, delivering innovative sports experiences and stress relief. It calculates continuous shock values and tracks calorie burn during exercise.

Contact: Koji Izumi
koji.izumi@sandbox.inc

BOOSTDRAFT, INC.

Legal Tech

BoostDraft redefines lawyers' ways of working by eliminating fundamental inefficiencies in legal drafting. Our software transforms MS into an assisted document editor, freeing lawyers from tedious tasks, such as definition/section reference look-up and format adjustments.

Contact: Yuki Maruoka
yuki.maruoka@boostdraft.com

Entertainment

HOLOTCH

Holotch Inc. provides an advanced holographic communication system. It leverages volumetric video's latest advances to facilitate immersive interactions and presenting experiences that simulate face-to-face encounters.

Contact: Hiroki Koike
hiroki@holotch.com

SKIDAY INC.

Sports Tech

SKIDAY Inc. creates a global matching platform that connects snow resorts with skiers and snowboarders by installing IoT cameras at snow resorts to collect the latest condition information, centralizing the data, and delivering it to skiers and snowboarders.

Contact: Tatsuya Tayagaki
tayagaki@skiday.app

AI/LLM

DATAGUSTO INC.

datagusto automates the generation and operation of prompts by automatically extracting relevant data to teach AI. It enables the creation and operation of LLM-based functions and applications without the need for prompt engineers.

Contact: Mao Parr
mao.parr@datagusto.jp

The Japan External Trade Organization (JETRO) is a government agency established in 1958 to promote trade and investment between Japan and the rest of the world through a global network spread over 70 regional offices abroad and over 40 offices in Japan.

X-HUB TOKYO
GLOBAL STARTUP ACCELERATOR

X-HUB TOKYO Program is a platform that connects Tokyo with the global innovation ecosystem and accelerates the startups that will open up a new era. OUTBOUND PROGRAM supports Tokyo-based start-up companies in their journey of global expansion in an aim to maintain the city's global competitiveness.
