Introduction

Japan Booth is organized by JETRO/UNIJAPAN with the support from Agency for Cultural Affairs (Government of Japan).

JETRO, or the Japan External Trade Organization, is a government-related organization that works to promote mutual trade and investment between Japan and the rest of the world.

Originally established in 1958 to promote Japanese exports abroad, JETRO's core focus in the 21st century has shifted toward promoting foreign direct investment into Japan and helping small to medium-sized Japanese firms maximize their global business potential.

UNI JAPAN is a non-profit organization established in 1957 by the Japanese film industry under the auspice of the Government of Japan for the purpose of promoting Japanese cinema abroad. Initially named 'Association for the Diffusion of Japanese Film Abroad' (UniJapan Film), in 2005 it joined hands with the organizer of Tokyo International Film Festival (TIFF), to form a combined, new organization.

© Happening Star Project

Happening Star

Thanks to the high quality of the planning process, story, character design, CG, and direction, all handled by MATSUMOTO. It took seven years in conception and two in production to create the movie MATSUMOTO had always dreamed of.

This film will stimulate those who had given up on their dream of directing a movie.

The story and world-building have been painstakingly thought through, and the appeal of this movie is not limited to those in the business or anime and movie fans.

Parents can bring their children safely, with the added bonus of a chance to learn about space and the universe.

Director : Chihiro MATSUMOTO
