Small size, below 20kw

For offshore wind power turbine, above 5000kw

## KEY WORDS

- Wind turbine manufactures
- Wing turbine component suppliers
- offshore
- operators

## OUR PRODUCTS

AIKAWA is pioneering wind tower manufacturing in Japan, with the country's first dedicated tower factory. With around 70 years of experience in manufacturing, we are applying our significant skills to renewable energy products. Capable of producing small 20m towers to large 100m towers, over 100 of our towers (and more on the way) stand proudly both within Japan and abroad.
