■ Exhibits : organic "kaga" miso

PR/Product Characteristics

Kagamiso Co. is cooperative union established in 1971 by 10 miso manufacturing companies in Ishikawa Prefecture. Kagamiso Co. gained certification by JAS (the organic regulations of Japan) in 2009 and started manufacturing organic miso. The ingredients used to make this miso are all produced in Japan (Ishikawa Prefecture) and certified under JAS. We recommend this organic "kaga" miso to people who are interested in their health. Of course, it contains no MSG or gluten, and uses non-GMO soybeans.

■ **Exhibits** : wasabi products, yuzu products

PR/Product Characteristics

We are Wasabi pioneer company. Kinjirushi Wasabi presents high quality Wasabi product to European market and global. Wasabi's pungency flavor have to be consumed within 10 min after grating. In order to keep the real Wasabi flavor, we have developed the method called Flash-freezing. Under this method, the Wasabi will be grated at extremely low temperature of -196°C to seal its taste and flavor. Wasabi taste is very popular in the world. Kinjirushi Wasabi also introduce unique Wasabi product, like Kizami Wasabi. Kizami Wasabi is made with chopped Wasabi stem. You can enjoy crispy Wasabi taste & pungency with Kizami Wasabi. Same time Kinjirushi Wasabi would like to introduce what we do as Wasabi manufacturer. We have contracted farmer in Japan for Wasabi and Japanese horseradish. We are thinking of solving agricultural & environmental problem. We use circulation farming to keep our environment in future. We change your experience of Wasabi.

■ **Exhibits** : fruit garlic

PR/Product Characteristics

Fruit garlic is exceptional black garlic. White garlic carefully harvested on our own farm in Kyoto is fermented without additives for one month to full maturity utilizing a unique technology. It is brilliant black, tastes sweet and sour like dried fruit, and has high antioxidative potency. Without the typical smell of garlic, when tasted blind it cannot be distinguished as garlic at all. The quality is highly prized by top restaurants including Noma, Martin Berasategui and Sant Pau.

■ **Exhibits** : Zen-Kyoto culinary grade matcha, Sencha, Houjicha

PR/Product Characteristics

Kouroen is an age-old tea company founded in 1903 in Kyoto. Our tea is grown in the perfect environment for tea cultivation since ancient times. Matcha is made from tea leaves that are shaded several weeks before harvest to deepen the flavor.

Culinary-grade matcha has a good quality for making matcha green tea and cooking. It can be used in a variety of recipes, including many kinds of desserts, breads, drinks, and dishes.

■ **Exhibits** : Japan's genuine wagyu beef

PR/Product Characteristics

It is only Japan's genuine Wagyu Beef that has the ultimate "texture", "flavour", and "aroma".

Unlike all other beef, (1) Japan's Wagyu is unique for (a) the finest texture, and (b) the highest grade marbling within the muscle fibre, whose melting point is as low as human body temperature, so that Wagyu immediately melts in the mouth, releasing the rich and sweet "Wagyu aroma" that is suggestive of coconut and peach. (2) More than half of finely distributed marbling in genuine wagyu consists of healthy unsaturated fatty acid, just as in olive.

Japan's Wagyu opens new dimension in all of your five senses.

Proof of Japan's Genuine Wagyu

To certify the unrivaled quality of Japan's Genuine Wagyu, WAGYU LOGO is attached. Only Genuine Wagyu bears the trade mark logo issued by Japan Wagyu Beef Export Promotion Committee.

JETRO's GLOBAL NETWORK

JETRO, the Japan External Trade Organization, is a government-related organization that works to promote mutual trade and investment between Japan and the rest of the world. Originally established in 1958 to promote Japan's exports abroad, JETRO's core focus in the 21st century has shifted towards promoting direct investment into Japan and helping Japanese firms maximize their global potential.
