1	SAIJOINX Co., Ltd	http://www.saijoinx.com/en/	100	Metal press, precision prototypeing, Precision Die, Stamping Fin		*Geschäftspartnersuc he/Kooperationspartn ersuche. *Marketing *Aufbau einer eigenen Niederlassung bzw. Produktionsstätte im Zielland	Kunde / Marketing partner, information exchange	The fruition of shorten the delivery time to 1/4 & reduce the cost to 1/3. ▪ Original Die-Sets System ▪ Technological Innovation ▪ Share of Date & Know-How *Our providing value ▪ Bring products to market faster! ▪ Reduced lead-time for prototype manufacturing! ▪ Reduced development costs!	Omron Group Companies/ Fujitsu Group/ Murata Mfg.Co.,Ltd./ Sumitomo Electric Industries, Ltd./ Kyocera Group/ Panasonic Electric Group Companies/J.S.T. Mfg. Co.,Ltd./ NIDEC Group/ DENSO Group
2	YASDA PRECISION TOOLS K.K.	http://www.yasda.co.jp/la_Deutsch/index.htm	260	Machine tool, machining center, CNC jig bowler	YASDA PRECISION TOOLS K.K. Representative office (Düsseldorf)	*Marketing	Kunde / Repräsentanten, Agenten oder Distributoren/ salesnetwork partner, marketing partner, information exchange	Our core competence is to design and manufacture high precision machining centers and jig borers promising long term accuracy and low thermal distortion. The machines are suitable for the applications needing micron level of machining accuracy and sub micron level of surface quality. Depending on the usage, we offer different type and size of machines. If customers are willing to increase productivity by maintaining machining accuracy for long hours, eliminating polishing work or minimizing erosion process, our products are able to realize it. Typical applications are; important components of machining centers, compressor housing, aircraft parts, car race engines, printing machines, die and mold etc.	Toyota / Honda / Yamaha / Mitsubishi Heavy Industries / Kawasaki Heavy Industry / IHI / CITIZEN Machinery / Okuma Corp. / Murata Machinery / TAKAMATSU Machinery / ENSHU / Fanuc / Sumitomo Heavy Industry / Toyo Machinery & Metal / Panasonic / Alps / Canon / KOBE Steel / KOMORI Corp. / GE Aviation / P&G / VDL-ETG / Breton / Soraluce / Samsung Electronics / Hyundai Wia / Doosan Infracore
3	hakai inc.	http://www.hakai.co.jp/english2/	193	Ultra-fine precision plastic parts (for electronic equipment, automobile, machine tool, smart phone, camera, flatscreen etc.)					
4	FUTEC	http://www.futec-global.com/index.html	206	Close examination and measuring aparatus for film, carbon and steel sheet	Futec Europe GmbH (Duisburg)	*Geschäftspartnersuc he/Kooperationspartn ersuche. *Marketing	Kunde / Repräsentanten, Agenten oder Distributoren/ salesnetwork partner, marketing partner , information exchange	We are actively developing new state-of-the-art technologies for inspection in-house at our R&D Center in Japan. Our R&D development program enables us to stay ahead of new process and material development so that we can offer an inspection tool for new markets.	
5	Fuji Electronics Industry Co., Ltd.	http://www.fujidenshi.co.jp/english/	110	Drive crankshaft Induction hardening machine/facility		*Geschäftspartnersuc he/Kooperationspartn ersuche. *Marketing	marketing partner, information exchange, complementary partner, Co-R&D Parnter	Developed precision hardening technology minimizing distortion to ensure uniform product quality after processing. Possesses nearly 150 patents and utility models (domestic and international, those pending included.) Frequently featured in Japan Patent Office's Metal Heat Treatment for developments in surface hardening and IH hardening. Owns numerous patents for transformers, coils, cooling systems, and mechanisms for hardening machines.	TOYOTA / HONDA / DMGMORI / Showa Corp. / Fuji Heavy Industries / Hyundai

8	BBS JAPAN CO., Ltd	http://www.bbs-japan.co.jp/en/	734	Forged Wheel, geosynthetics material Subsidiary of Maeda Kosen Co., Ltd.	production and sales of wheels for motor sports races	*Marketing	Einführung der Technologie, Complementary partner	Craftsmen perform skilled work in each production process. These expert skills are the one of BBS' assets. "Display our delicate handiwork in places not shown on drawings or by numerical data". To that end, BBS insists on making wheels one by one by human hands and eyes, even though it means sacrificing work efficiency. The beauty of the moment you see it, the texture of the moment you touch it and the exhilarating feeling of the moment you start driving. High quality experienced with all five senses. These are the true values of BBS forged wheels, which are supported by our human resources.	TOYOTA / HONDA / MAZDA / BENTLEY
9	Nissha Printing Co., Ltd.	http://www.nissha.com/english/index.html	955	touch input device, and etc	participation from Nissha Europe GmbH(Eschborn)	*Geschäftspartnersuche/Kooperationspartnersuche. *Marketing	Kunde / Lizenzvertragspartnern /Partner n zur gegenseitigen Nutzung der Vertriebsnetze/ Joint-Venture- Partner/ Repräsentanten, Agenten oder Distributoren/ Produktionsmöglichkeiten/ salesnetwork partner, complementary partner, Co-R&D Partner	The features required in interfaces that connect man with machine (HMI) continue to change as technology evolves. For dashboards found in automobiles, in particular, there is a need to provide a broad range of functionality providing the user visibility to quickly recognize information day or night in all weather conditions. The decoration solution needs to consider a wide variety of designs whilst providing extra durability and weight saving amongst other attributes. The MFpanel combines such features requested of HMIs to the optimal degree, making it the ideal solution in IVI.
