

openLogi

Trial project in Indonesia

E-commerce merchants are rapidly growing in Indonesia, however the inventory management is still messy.

Merchants still have a lot of problem

- Have to package
- Sometimes have to bring item to courier location by themselves
- Have to expand new warehouse by themselves
- Have to hire a lot of people

Outsourcing is the best way to solve these problem.

Why Openlogi?

Before Openlogi

- Have to package
- Sometimes have to bring item to courier location by themselves
- Have to expand new warehouse by themselves
- Have to hire a lot of people

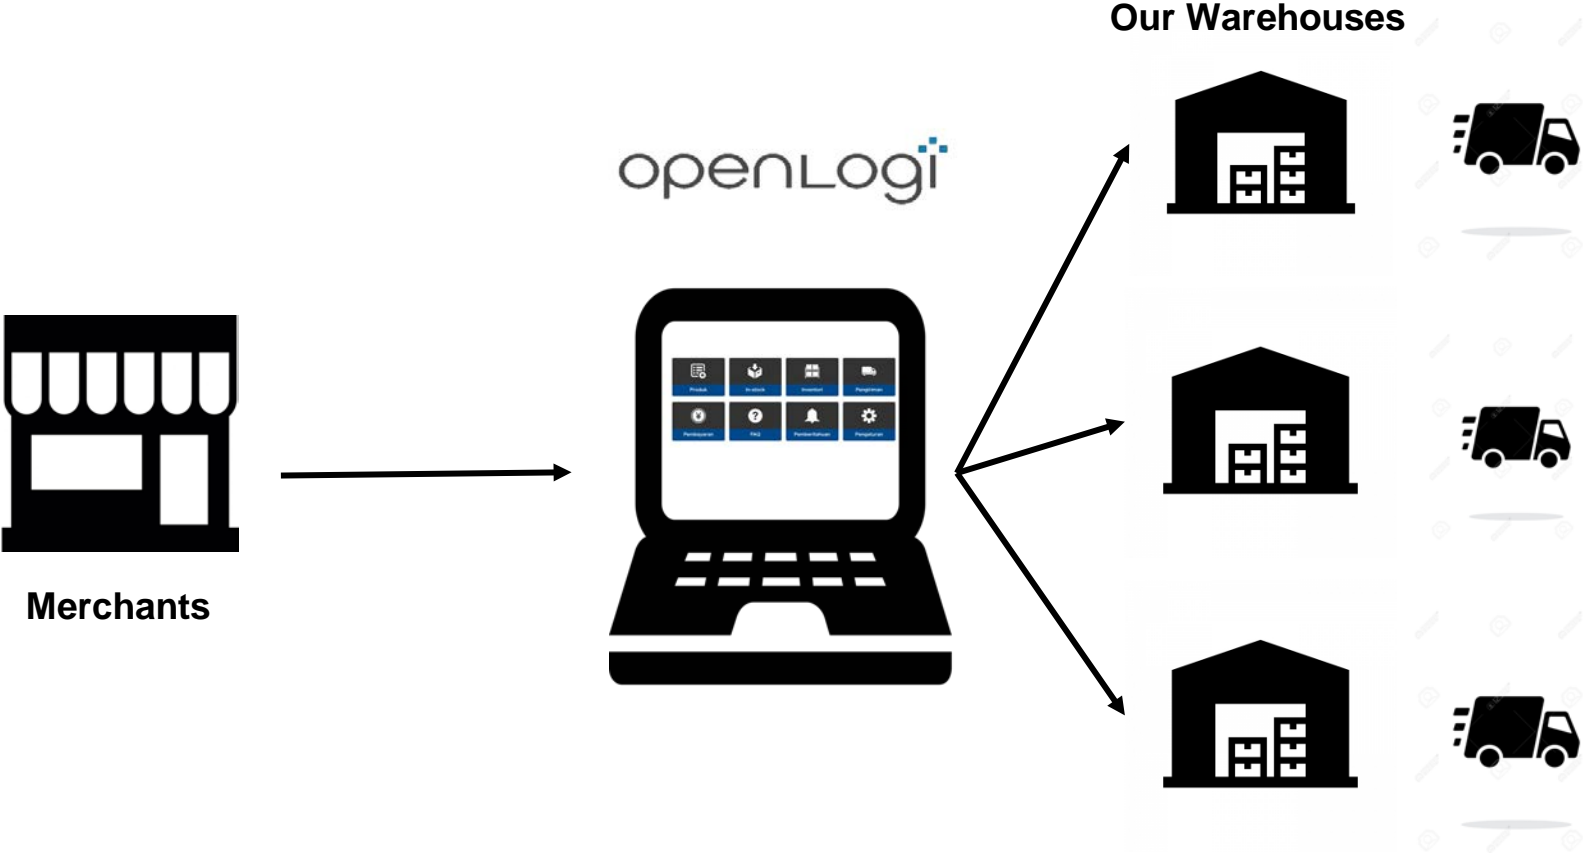

After Openlogi

All you should do is to click your laptop within 3 minutes!!

Openlogi is providing warehousing platform via online for Small and Medium merchants.

What Openlogi Do?

Openlogi grows one of the biggest warehouse platform now in Japan.

Our Achievement

- ✓ More than 5,000 merchants
- ✓ More than 20 warehouses all over japan
- ✓ Our services are growing amazingly

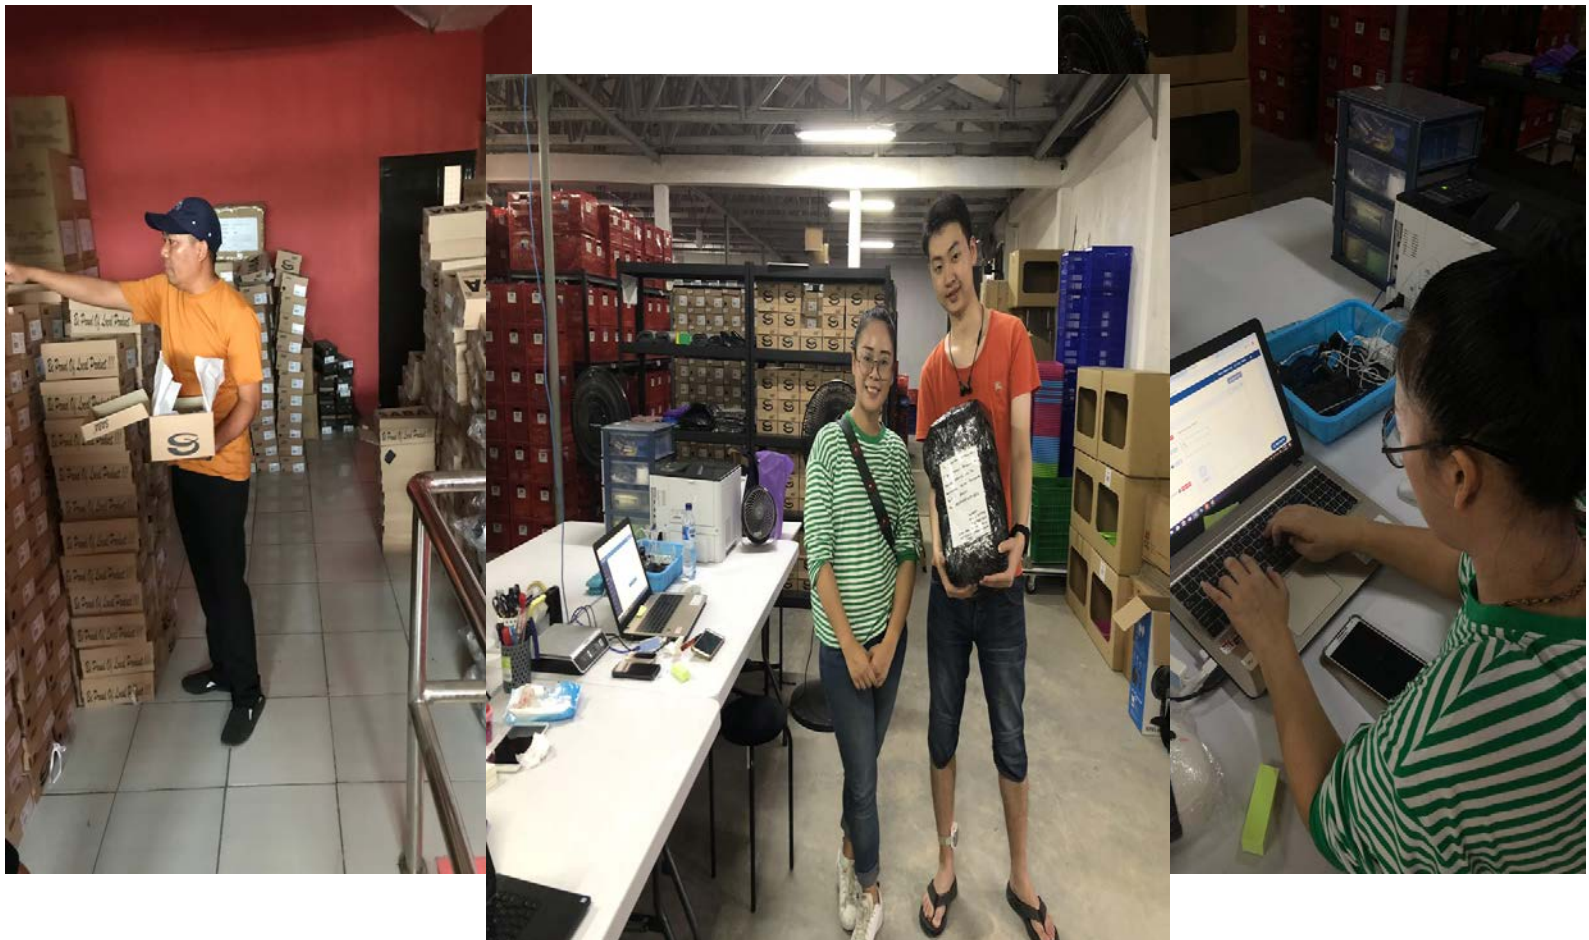

Openlogi starts trial operations in Jakarta using our partner warehouses.

Our Challenges in Indonesia

Openlogi can empower and boost Omnichannelization for SMEs and individual merchants.

Our impact to Indonesian Society
