✓ Consultation Services

● **Company establishment, residence status and visa**

IBSC users can receive free consultation from skilled advisors on company establishment. Upon request, JETRO will introduce experts such as judicial scriveners (company registration), administrative scriveners (residency and visa application), tax accountants (taxation), and social insurance labor consultants (human resource management). These multilingual specialists can also handle actual procedures of filing legal paperwork and applications on behalf of your company (for a fee paid directly to the specialist).

● **Staff recruitment**

When IBSC users need to find local staff such as a representative in Japan, marketing representatives, accountants, or engineers, JETRO will introduce reliable recruiting firms. Upon request, JETRO will help to arrange interviews with candidates.

● **Office locations & industrial sites**

JETRO will introduce reliable real state agencies. Upon request, JETRO will help to set up meetings with agencies or arrange inspections. In addition, local governments will help us to provide you with industrial site information.

● **Information on incentives & relevant laws**

Using our network with local and national governments, JETRO offers helpful information such as tax preferences or subsidies, which you may be able to make use of when establishing a Japan office. We also help you to identify any licenses and laws that may apply when your company enters the Japanese market. In order to discuss the details, we are able to make meeting arrangements with national or local government officers.

● **Others**

you can receive a wide range of consultation services related to the Japanese market, PR support, networking with business partners in Kansai, and business-related advice.
