

A finely ground powder that is finer than wheat flour.
Tasteless and flavorless,
it will help expand your cooking repertoire!

Edible bamboo charcoal powder

■Product description

- We use highly-carbonized bamboo charcoal that transmits electricity. We ground such bamboo charcoal into powder finer than wheat flour (average size: 5-8 μ m).
- We guarantee the safety of this product based on the result of radioactivity tests, virus tests, grain size tests, and moisture tests.
- The bamboo charcoal powder is free of taste and smell. You can broaden and differentiate your menu without spoiling the original flavor of ingredients or the taste of your dishes.

■How to use

Add 5-8% bamboo charcoal powder. You can use it to add color to various dishes such as cakes, cookies, ice cream, puddings, pasta and other noodles, pizza/nan doughs, dressings, soft drinks, curry, jams, and sauces. You can broaden and differentiate your menu without spoiling the original flavor of the ingredients or the taste of your dishes (black colouring).

Company overview

TAKESUMI NO SATO CO., LTD.

A company that produces the highest quality bamboo charcoal using organically grown bamboo

We established an agricultural corporation to utilize bamboo grown in Kyusyu Islands of Japan. We have products covering the fields of “Beauty,” “Health,” “Environment,” and “Relaxation.” We are engaged in all phases of the production process from growing bamboo used as ingredients of our products, to the production of bamboo charcoal and bamboo vinegar. Our workers manually and carefully bake the highest-quality bamboo charcoal in traditional ceramic ovens. Our products are made of bamboo charcoal from organic bamboo that does not use chemical fertilizers.
