

The Global South Future-Oriented Co-Creation Project: Selected Companies (1st Application)

Olympus Corporation

“Overseas manufacturing demonstration project for Japanese quality medical devices”

- ◆ Head office: Tokyo ◆ Listed on Tokyo Stock Exchange
- ◆ Founded: 1919
- ◆ Business area: Development, manufacturing, and sales of endoscopes and therapeutic devices
- ◆ Olympus Vietnam Co., Ltd. will jointly implement the project.

Project Plan

“Verify whether high-quality medical devices can be mass-produced overseas while maintaining Japanese quality”

<Outline>

- Project period: From April 2025 through March 2028
- Transfer medical devices manufacturing line overseas, once established at a plant in Japan, to see if mass production is possible while maintaining Japanese quality

<Expected results>

- Obtain competitive advantage through low-cost mass production of medical devices
- Significantly increased sales volume of medical devices will in turn increase purchase from suppliers, allowing an increase in employment
