Purpose

This program is designed for Japanese startups originating in Japan and aiming to expand into global markets. We are seeking companies at the Series A stage or beyond (with a priority on the energy and Climate Tech sectors), as well as pre-seed stage companies across all sectors. We provide tailored support based on each company's growth phase and needs to assist with their entry into the U.S. market and business scaling. Additionally, ERA Global may consider individual investment opportunities from relevant funds based on each company's business model and growth potential.

*JETRO is responsible for supporting startups in this program but is not involved in investment decisions or execution.

1

Customized Mentoring

2

Support for securing U.S. investors, customers, and talent

3

Branding and market entry support

Location

*Potential investment of up to \$1 million per company

Online, Tokyo, U.S. (New York)

Target Audience

Japanese startups originating in Japan and aiming for the global market

- Startups at Series A or later stages (*Priority given to sectors such as energy and Climate Tech)
- Pre-seed startups across all sectors (*Please refer to p. 5 for priority sectors.)

***A decision-maker capable of making decisions regarding overseas expansion (CXO-level recommended) must be able to participate in the program.**

Startups at Series A or later
(Priority given to energy, climate tech, and related fields)

Target Companies

- Startups at Series A or later stage (Priority given to energy and Climate Tech sectors, etc.)
- Technology Readiness Level (TRL): 8–9 (proven to early commercialization stage)

Support

- Practical support from ERA regarding strategy, execution, and organizational development
- Support for entering the U.S. market and scaling up operations
- Support for capital strategy and future funding rounds
- Potential investment from Remarkable Ventures Climate (up to \$1 million)

ERA will individually evaluate investment from affiliated funds based on each company's business operations, growth potential, and progress during the program period.

*JETRO is responsible for startup support under this program and is not involved in investment decisions or the execution of investments.

Target Companies

- Pre-Seed Stage Startups
- All Sectors

*Priority Sectors

AI and AI Applications / Enterprise Software / Fintech / Developer Tools and Infrastructure / Climate Change and Energy Transition Technologies / Data Infrastructure / Healthcare Technology / The Future of Work / Industrial AI and Industry-Specific AI / AI-Native Companies (Companies Transforming Large-Scale Existing Industries)

- Technology Readiness Level (TRL): Approximately TRL 3 (including research and hypothesis validation stages)

Support

- Validation of customer challenges to inform product development
- Support for MVP development and formulation of initial go-to-market strategy
- Enhancement of pitching capabilities
- Participants will be invited to apply to the Entrepreneurs Roundtable Accelerator Winter Program for a potential investment of \$150,000.

*Admission to the ERA Winter Program is subject to a separate selection process and requires meeting certain conditions, such as having a U.S. entity (e.g., a Delaware C-Corp). For further details, please contact the address listed on p.16. JETRO is responsible for providing startup support within this program and is not involved in investment decisions or execution.

1

Mentoring

Mentoring

Pre-seed companies will be provided with a weekly curriculum and mentoring, through which they will work on customer discovery, problem validation, and MVP design. Later stage (Series A+) companies will receive more individual meetings with the RVC team for tailored support.

2

Travel to New York

Travel to New York

Travel to New York City is strongly encouraged. While in New York, participants will have complimentary access to ERA's co-working space for up to 10 weeks. This includes meetings with mentors, as well as opportunities to connect with the New York startup ecosystem.

2

Mentoring

Through online lectures and workshops with ERA's team of mentors, you will acquire the knowledge necessary for business expansion.

Capacity
