

# Survey on Business Sentiment of Japanese Corporations in Thailand

for the 1st Half of 2023

JCC Economic Survey Team Press Release Date: June 27, 2023

#### Record

# **Survey Period**

Questionnaire distribution date: May 9, 2023 Questionnaire submission deadline: June 2, 2023

#### **Survey Response**

Number of questionnaires distributed: 1,633 JCC member companies (excluding 12 governmental organizations)

Number of respondents: 512 firms

Response rate: 31.4%

#### **Remarks**

• Due to the small number of firms responding to some questions, it may not be advisable to evaluate the situation by referring only to the response percentage.

#### Number of Firms

|                   | Industry                        | No. |

# **Report of Survey Results**

Please refer to the following

#### 1. BUSINESS SENTIMENT

#### (1) Overview

The business sentiment (DI) is 24 in the second half of 2022, -3 in the first half of 2023 (forecast), and 26 in the second half of 2023 (forecast). The decrease of DI forecast for the first half of 2023 (-3) is influenced by several factors such as global inflation, the declining demand for exports due to the tightening of monetary policies despite the positive impact on the economy from the inbound recovery. The DI forecast for the second half of 2023, however, becomes more positive  $(-3\rightarrow 26)$ , as the responding Japanese firms expect the continued recovery of inbound tourism and a recovery in demand for exports. (Table 1-1)

(Table 1-1) Business Sentiment

| (Ref.) DI     | 34 | 18 | <b>▲</b> 19 | <b>▲</b> 24 | <b>▲</b> 64 | 24  | 33 | 26 | 27     | 21      | 28   | 24     | <b>A</b> 3 | 26   |

<sup>(</sup>Note) 1. DI = "Improving" -(minus) "Deteriorating"

#### (2) The second half of 2022 (July - December)

The percentage of firms reporting their business sentiment was "Improving" increased by 1 point to 50% from the previous term (49%). On the other hand, the number of those indicating their business sentiment was "Deteriorating" also increased by 4 points from the previous term (22%) to 26%. As a result, the Diffusion Index (DI), a deduction balance of "Improving" and "Deteriorating" decreased by 3 points from the previous term (27) to 24. (Table 1-1)

Concerning the movement of each industry's DI, despite some industries improving, the DI value for the manufacturing sector decreased by 7 points to 16 from the previous quarter (23) since the DI for some industries such as the textile (-8) and steel/non-ferrous metal (-3) industries turned negative. For the non-manufacturing sector, the DI value increased by 1 point from the previous term (32) to 33 as no industries turned negative. (Table 1-2)

#### (3) The first half of 2023 (January - June) - Forecast

The percentage of firms indicating that their business sentiment is "Improving" decreased by 17 points from the previous term (50%) to 33%, while the percentage of those reporting "Deteriorating" business sentiment increased by 10 points from the previous term (26%) to 36%. As a result, the overall DI is projected to decline by 27 points from the previous term (24) to -3. (Table 1-1)

For the manufacturing sector, since the DI values for many industries have worsened and the figures for some industries such as electric/electronics machinery (-11) and transportation machinery (-23) industries have become negative, the overall DI forecast for the manufacturing sector, therefore,

<sup>2.</sup> As the decimals of percentages are rounded off, the total may not equal 100 percent. This also applies to tables below.

decreased by 34 points from the previous term (16) to -18. For the non-manufacturing sector, as the DI value for transportation/communication (-30) fell negative, the overall DI forecast decreased by 19 points from the previous term (33) to 14. (Table 1-2)

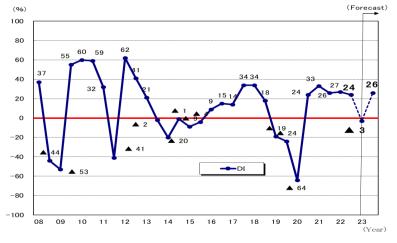

#### (4) The second half of 2023 (July - December) - Forecast

The percentage of firms expecting "Improving" business sentiment increased by 9 points from the previous term (33%) to 42%, meanwhile the percentage of firms expecting "Deteriorating" sentiment decreased by 20 points from the previous term (36%) to 16%. Thus, the overall DI forecast rose by 29 points from the previous term (-3) to 26. (Table 1-1)

For firms in the manufacturing sector, since the DI values for all industries turned positive and have significantly improved, the overall DI is expected to rise by 44 points from the previous term (-18) to 26. For the non-manufacturing sector, although the DI value for transportation/communication (-13) continues to be negative, the DI value for some industries has increased such as trading (32). Therefore, the overall DI forecast rose by 11 points from the previous term (14) to 25. (Table 1-2) (Table 1-2) Business Sentiment (DI) by Industry ("Improving" - "Deteriorating")

|            |                                 |             |             |             | Past S      | urveys      |            |             |      | Cur         | rent Sur    | vey         |

#### 3. PRE-TAX PROFIT/LOSS

Regarding the pre-tax profit/loss for fiscal year 2022, the percentage of firms reporting "Profit" is 81%. Additionally, firms reporting an "Increase" in their pre-tax profit (including cases of diminishing loss and account balance due to vanishing loss) accounted for 46%, while 32% reporting a profit "Decrease". (Table 3-1)

As for the projection for fiscal year 2023, 81% of the respondents anticipated "Profit" and those anticipating an "Increase" in their pre-tax profit amounted to 34%, whereas 37% anticipated a "Decrease" in profit. (Table 3-2)

(Note) Same as Table 3-1

<sup>2. &</sup>quot;No change" indicates that a business remains at the same level whether they were in the black, at the break-even point, or in the red.

<sup>3. &</sup>quot;Decrease" indicates either diminishing profit, falling into the red, expanding loss, or falling to account balance due to vanishing profit.

#### 4. CAPITAL INVESTMENT

The amount of capital investment planned for 2023 is expected to increase by 4.1%, compared to 2022 (the total number of firms responding was 482). 30% of these firms anticipated an "Increase" in their capital investment, while 13% anticipated a "Decrease". (Table 4-1)

Regarding the details of the investment, "Replacement" is the predominant form of capital investment in both 2022 and 2023. (Table 4-2, 4-3)

#### 5. EXPORT TREND

The percentage of firms anticipating an "Increase" in exports in the first half of 2023 (in comparison to the same period of the previous year) is 24%, lower than the percentage of firms expecting a "Decrease" (28%) by 4 points. For the projection for exports in the second half of 2023, the percentage of firms anticipating an "Increase" (30%) is higher than those anticipating a "Decrease" (24%) by 6 points. Meanwhile, the number of firms expecting an "Increase" in the 2022 full-year exports accounted for 28%, exceeding those anticipating a "Decrease" (26%) by 2 points. (Table 5-1, 5-2, 5-3)

#### 8. PROCUREMENT SOURCES FOR PARTS/MATERIALS

Regarding the ratios of procurement sources for parts/materials in 2022 (a simple arithmetic average of the respondents' answers), "ASEAN" accounted for 55.2% of parts/material supply, of which 48.0% was sourced in "Thailand". (Table 8-1)

As for the ratios of procurement in 2023, procurement from "ASEAN" accounts for 58.1%, of which 50.2% will be sourced in "Thailand". (Table 8-2)

(Table 8-1) Procurement Sources for Parts/Materials in 2022

# 9. CHALLENGES FOR CORPORATE MANAGEMENT (multiple answers)

Regarding challenges for the Japanese companies' corporate management, the predominant answer is "Severe competition with other companies" (63%), followed by "Surging prices of raw materials and parts" (59%), "Increase in total labor cost" (45%), and "Foreign exchange rate fluctuation" (31%).

Another popular choice for firms in the manufacturing sector is "Rising energy cost" (48%), while many companies in the non-manufacturing sector also cited "Changes in products/users' needs" (26%) as a challenge. (Table 9)
