Presentation Overview

Mr. Li Zhigang
Chairman
Industrial and Commercial Bank of China (Thai) PCL

The largest commercial bank in the world in terms of market capitalization, acquired 97.24% of the total issued shares of the Bank from a voluntary tender offer of all shares traded on the SET and changed the name of the Bank to "Industrial and Commercial Bank of China (Thai) Public Company Limited" becoming a part of the ICBC Group.

Thailand shares close and friendly relations with China and Japan, which lays a solid foundation for multilateral cooperation. With the increase of investment from China to Thailand, the Chinese enterprises in Thailand are developing vigorously, which will render huge potential for international cooperation in the field of infrastructure and emerging industry among China, Japan and Thailand. Chinese banks including ICBC will seize the opportunity and give full support to all enterprises involved in EEC construction.

Workshop

Development projects in EEC

Ms. Li Jingjing
Vice President
Sany Heavy Industry Co., Ltd.

Founded in 1989, SANY has a comprehensive product profile, including concrete machinery, excavators, crawler cranes, rotary drilling rigs and coal mining machinery. Two of its member companies are listed on separate stock exchange markets: SANY Heavy Industry Co., Ltd.

SANY has been actively participating in the big engineering, big energy, big livelihood projects around the globe, including projects in Thailand and other ASEAN countries. SANY equipment can be seen in a lot of Thailand's key construction projects, i.e., the Airport Link, Light Rail Blue Line, Light Rail Red Line, the World's largest temple Tangmagai Temple, Thailand's tallest building Mahanakorn, etc. At present, SANY has more than 3000 sets of equipment in Thailand, among which the market share of new cranes reaches nearly 70%. Currently, SANY has developed five agents, one excavator joint venture, and one joint venture finance company in Thailand, establishing a relatively complete business system. In the future, SANY will continue to work with different sides to provide high-quality products as well as professional construction and financial solutions for our customers.

Mr. Quan Nan
Director, Southeast Asia-South Asia Office
Global Energy Interconnection Development and Cooperation
Organization (GEIDCO)

The Global Energy Interconnection Development and Cooperation Organization (GEIDCO), is an international organization among willing firms, associations, institutions and individuals who are dedicated to promoting the sustainable development of energy worldwide.

The keynote speech focused on "Global Energy Interconnection". Building Global Energy Interconnection is a major innovation in the field of energy and power. It will create a clean energy-driven, electricity-centric, interconnected, and shared modern energy system. The allocation of wide-area and consumer electrification will fundamentally solve major problems such as resource shortage, climate change, environmental pollution, and powerless population, and open up new paths for accelerating world energy transformation and sustainable development. And GEIDCO is committed to promoting the construction of a Global Energy Interconnection, and has done a lot of work in strategy, planning, technology, and projects. GEIDCO is willing to actively build an international cooperation platform and unite all parties to jointly promote the transition of global energy and create a bright future for sustainable development of mankind.
