

Invitation Program

Business Matching in Hiroshima

February 15 (Mon) - 18 (Thu) , 2016

[Organizer] Hiroshima Prefecture, Investment Center · One-Stop Hiroshima

○ Background & Outline

Many diverse and well-balanced industries are concentrated in Hiroshima, from shipbuilding, steel, and auto industries to electric- and electronic-related industries.

At the same time, there are many companies that have unique and excellent products and seeds in such high-technology fields as life science, environment, energy, and ICT.

In these industries, there are a lot of companies to hope for collaboration and alliances with overseas companies.

In this program we will arrange Individual Business Matching with Hiroshima companies, and provide an opportunity for your company to present your needs to them.
