

Partnership with S&P Global Energy 2026

This time, JH2F and S&P Global Energy have entered into a partnership. S&P Global Energy is leading independent provider of information and benchmark prices for commodities and energy markets, enabling businesses to make superior decisions and create long-term sustainable value.

The World Hydrogen & Carbon Series is a global portfolio of strategic events uniting leaders across the hydrogen, carbon capture, utilization, and storage (CCUS), low-carbon fuels and carbon markets value chains. From energy producers and industrial offtakers to technology innovators, financiers, and policymakers, the series provides a platform for collaboration and deal-making that accelerates the scale-up of clean energy and carbon management solutions worldwide.

S&P Global Energy is planning to hold the following events in 2026. JH2F will support as a partner, and some of the key leaders driving the hydrogen industry will deliver presentations at the conferences.

World Hydrogen & Carbon Americas

March 10(Tue) - 12(Thu)
Houston, Texas, United States

World Hydrogen & Carbon Asia

July 7(Tue) - 9(Thu)
