

インド知財関連法律事務所一覧

(第5版)

2019年3月

独立行政法人 日本貿易振興機構
ニューデリー事務所
知的財産権部

はじめに

インドでは、近年、知的財産制度の強化が進められており、特許、商標に関する審査迅速化に伴って案件処理量が急増しています。また、特許、商標等に基づく権利行使も着実に増加しています。このようにインドでは知財人材の増員が求められてきたところ、2019年1月には、1358名の弁理士が新たに誕生しています。こういった知財環境の変化に伴い、特許、商標、意匠等の出願、権利行使の代理を行う法律事務所の状況も変わりつつあります。

また、インドに進出する日系企業の数も年々増加を続け、2018年10月の時点で1441社に上っています（2018年12月、在インド日本国大使館、ジェットロ調べ）。また、その進出先もデリー近郊のハリヤナ州(393社)、デリー準州(162社)をはじめ、チェンナイを州都とするタミルナドゥ州(201社)、ムンバイを州都とするマハラシュトラ州(243社)、ベンガルールを州都とするカルナータカ州(224社)など、国内各地に分散しています。インドで研究開発を行う日系企業も増加しており、研究開発成果をインドで保護するために、各地に点在する法律事務所を適切に活用していくことが求められています。

そこで、ジェットロでは、知的財産を取り扱うインドの法律事務所の最近の情報を広く日本企業に公開し、事務所選択の一助としていただくため、本「インド知財関連法律事務所一覧」を改定することにしました。

本報告書は、法律事務所の格付け、紹介を行う Legal 500, Asialaw Profiles, IAM 1000, World Trademark Review, MIP IP Stars, Asia IP Profiles 等の情報を基に、インドの各法律事務所アンケート用紙を送付し、その趣旨に賛同し回答をいただいた法律事務所について、その結果をまとめたものです。

本報告書は、インド国内には本報告書記載以外にも知的財産を扱う多数の法律事務所があること、及び各情報は適時に更新する必要があることから、今後も随時改定版を発行していく予定です。

なお、本報告書記載の法律事務所をジェットロとして推薦するものではなく、また、本報告書の性質上、各回答内容に関して、その正確性、完全性等、如何なる保証をジェットロが負うものではないことにご留意ください。

本書が、皆様のお役に立てば幸いです。

日系企業に対してコメント.

Ahlawat & Associates (A&A) is one of the top law firms catering service to domestic and international clients, including assistance to intellectual property matters in India and abroad. We have assisted clients from over 20 jurisdictions to enter and flourish in India. The Japan-India investment corridor is a key focus area for the firm. Since we established Japan Desk in 2013 with Japanese staff and strong understanding of Japanese business practice, we have been participating with the Intellectual Property Group that is organized by JETRO, by way of which we offer Japanese speaking in-person meetings and counseling to Japanese companies on issues in relation to India.

インド国内外の知的財産関連案件サポートを含めた国内・国際の案件を取り扱う国内有数の法律事務所であるアフラワット法律事務所（A&A）では、インドでの新規事業立ち上げにおいては20以上の国や地域の実績がありますが、特に日本企業の投資や進出の支援に関しては重点分野として取り扱っています。2013年に常駐日本人スタッフを配置し日系企業関係の実務を専門とするジャパンデスクを開設して以来、JETRO主催の知的財産研究会への継続的な参加などを通じて、日系企業がインドで直面する課題について日本語によるコンサルティングやアドバイザリー業務を提供しています。

<https://in.linkedin.com/company/anand-and-anand>

日系企業に対してコメント.

The IP issues in India can generally be classified into five broad heads, namely:

- i. The protection and enforcement of technology through patents;
- ii. The protection, commercialization and enforcement of brands including trademarks and the entire battle against counterfeiting and piracy;
- iii. The Copyright industry including software, films, music, book-publishing and the unique issues arising from the internet including cyber-crime, etc.;
- iv. Some trade secrecy issues involving errant employees who tend to walk away with trade secrets; and
- v. Some design issues arising in specialized industries like the fashion industry or domestic household products.

The extra-ordinary precautions that need to be looked at for the first sector involve a fundamental practical precaution namely to bring into India new pharmaceutical products as soon as it is practicable as a lot of the problems arise due to non-working, creating a distortion in the balance sought to be delicately maintained by the patents law.

Obviously, good protection through filing and timely legal action against infringers, sometimes even before their launch, has served companies well particularly those that were ready in advance of the violation even in such mundane ways as selection of neutral expert witnesses.

As regards the second category, protection, commercialization and enforcement involve a fair amount of precautionary measures such as the recordal of rights with the customs under the IPR Rules and the exploration of all sorts of alternate solutions such as pre-litigation mediation quite apart from civil or criminal actions.

Good investigations are fundamental to success and having marks declared well-known has turned out to be a tremendous by-product of the immediate task of restraining someone.

The Copyright Industries are a fairly well-oiled machinery with tremendous probative advantages unlike some of the other fields of IP, e.g. no copyright registration is essential and there is automatic protection in all Berne and UCC countries upon creation of a work.

The biggest challenge in the design, copyright overlap appears to be the Section 15 (2) problem which has diluted the rights of design companies and the biggest precaution here is to ensure design registrations rather than rely upon copyrights that may stand extinguished upon mass production of the work.

Archer & Angel's intellectual property team advises both domestic and international businesses on a wide variety of legal issues affecting intellectual property, including trademarks (including prosecution, border protection, customs, investigation, search and seizure, enforcement / litigation), domain disputes, patent searches, patent drafting, patent filing and prosecution, copyright, industrial designs, management of portfolios, Alternate Dispute Resolution. We also advise on technology transfer, licensing, trade secrets, unfair competition, entertainment, computer law and franchising with a particular emphasis on cross border transactions. The IP team works closely with our transactional lawyers on the intersection of IP and corporate issues.

日系企業に対してコメント.

Archer & Angel has a proven record of successfully and satisfactorily representing Japanese clients including JETRO.

The firm also works closely with one of India's finest interpreter and has the capacity to communicate with clients in Japanese language if required. Few of the firm's attorneys are also trained to speak and read basic Japanese which has helped to streamline communications between the firm and its esteemed Japanese clients.

その他得意事項 (ex: 特許性調査、IP ウォッチング、IP ポートフォリオ分析、ライセンス契約等)

We have a team of skilled Patent Attorneys and engineers who are technically qualified to handle drafting of patent specifications in all areas of technology. All of our attorneys in the drafting team undergo training under the FICPI SEAD course exclusively for drafting, which is an international level patent drafting course with tutors from around the globe giving a perspective of drafting worldwide.

We have dedicated desks for several neighbouring countries (including Afghanistan, Pakistan, Nepal, Myanmar, Bangladesh, Sri Lanka, Maldives, Mauritius, Cambodia, Vietnam, Laos, Philippines and Indonesia.) and are capable of managing big IP portfolios covering multiple jurisdictions for our clients. Further, our anti counterfeiting practice is supported by a robust team of investigators to provide a one stop solution to the clients.

We also have special expertise in domain name disputes and have assisted several clients in successfully curbing misuse of their trade marks as domain names by third parties.

We are capable of conducting all kinds of Patent searches which includes patent prior art searches to ascertain patentability of an invention, freedom to operate searches, invalidation searches, Gazette scanning, Standing Searches for one subject matter, Name Search, Subject matter search and On-line database search.

We also provide watch services which include Patent watch, Design watch and Trademark watch.

日系企業に対してコメント.

We have been successfully handling IP matters of major Japanese companies over the years and understand the requirements of Japanese firms very well. We have been successful in meeting their expectations and requirements. We believe in maintaining a healthy working relationship by regularly visiting Japan to meet our Japanese clients and keeping them informed about the current trends and practices at the Indian Patent Office. We have also been participating in different IP events conducted in Japan, namely, Patent Information Fair & Conference (PIFC)], FICPI, IPBC etc. Our past working experience with the Japanese firms and understanding of their requirements makes us a reliable firm.

The Firm has a niche IPR practice and consists of specialized professionals having credible prior experience in advising clients in this area of practice. The Firm's representation spans across the entire ambit of Intellectual Property laws globally, advising wide range of international and domestic clients, in protection and enforcement of their intellectual property rights in prosecution, litigation, advisory and transactional practices in these areas. The Firm's IP team has the multi-disciplinary approach while team members regularly focussing on providing clients with the best solutions available not merely under intellectual property laws but also in related areas such as under corporate laws, foreign investment laws, criminal laws, contract law, constitutional law and others. The Firm maintains effective working relationships with international patent and trademark lawyers and local and international investigators to address client requirements in a cost-efficient and timely manner. The Firm advises the wide range of clients regarding the identification, development, protection and enforcement of their valuable intellectual property portfolios, including copyrights, designs, patents, trademarks, domain names, trade names and trade secrets. The Firm is well versed in handling defamation, free speech and other issues arising under media law and in advising on Internet law.

Patent

The Firm's patent attorneys cater to a wide array of client's needs in the field of patents. Firms services offered include end to end solutions with regard to patent filing and prosecution, conducting novelty and patentability searches, conducting opposition searches, designing, drafting, filing, registration of patent applications, handling portfolios and patent management, patent landscaping, licensing, dispute resolution and litigation in patent related matters.

Trademark

The Firm provide its clients with a wide range of value- added trademark services which supports our clients throughout the entire trademark lifecycle right from brand creation and trademark registration to licensing, due diligence and sale. The services offered include search on trademark availability, analysis of the trademark proposed to be applied for, advisory on the proposed trademark, attending to all pre and post registration proceedings while also including trademark portfolio management, registration of assignment of trademarks, drafting license agreements, franchisee agreements, assignment deeds and legal notices, causing representations at the trademark offices in the matters of trademark related disputes and hearings, trademark related dispute resolution and litigation management, advisory and litigation for instances of trademark infringement and passing off etc. The above services are also offered for the applications filed under the Madrid Convention.

Copyright

The Firm's copyright attorneys provide advisory services for safeguarding client's copyright, protecting the same from infringement and also for acquisition and registration of copyright. The Firm's services include drafting reports and opinions on copyrights, drafting, filing and prosecution of copyright applications, assistance in copyright clearance, enforcement and protection, handling licensing and transfers for copyrights, reviewing, drafting and negotiation Agreements, risk assessment for copyrights, assisting in copyright monitoring and compliance, management of digital rights, advisory and management with respect to copyright litigation matters etc. The Firm advises Media and Entertainment companies including Print and Digital Media Companies on various Copyright Contract and litigation.

In addition to the above, the Firm also conducts IP Audits and Due Diligences to assess the value of the intangible assets; Representing clients at the Supreme Court of India, High Courts, District Courts, Intellectual Property, Appellate Board, Office of Regional Director (Ministry of Corporate Affairs), also conduct proceedings before Alternative Dispute Resolution (Arbitration & Mediation), WIPO and various other forums, handling a wide range of IP litigation and matters including complex infringement actions.

日系企業に対してコメント.

Intellectual Property Rights (IPR) though being an intangible asset has with time become the backbone for creating a distinct identity amongst the global players in the market. The Firm offers its clients, access to a wealth of experience in prosecution, litigation, advisory and transactional practices in these areas. The Firm's Intellectual Property Practice Group is structured as a cohesive national team over the various offices of the Firm, comprising of exceptional litigators, prosecution lawyers and agents with degrees in scientific disciplines and in-depth knowledge of industry needs, and experienced transactional lawyers. With the help of our team, we offer comprehensive services on various IP related concerns of our clients and being an all service law firm can act as one stop IP firm for your clients.

We are a team of patent and trademark attorneys, patent agents and advocates who are dedicated to providing the best and most holistic service in all areas of intellectual property, including patentability search, IP watchdog, IP portfolio analysis and IP licensing.

We work in all the traditional fields of IP, viz., trademarks, patents, copyrights and designs and offer the whole spectrum of services, i.e. searching, filing, prosecution, oppositions and cancellations and renewals/ payment of annuities. Our perspective and advise is contemporary, with an eye on the long-term goals of the client's business. We also offer multi-jurisdictional counselling on trademark law.

We have a strong litigation and enforcement practice. We are solicitors and advocates and represent clients in forums and courts pan-India, in a wide range of IP disputes. Our litigation practice also encompasses "non-traditional" IP such as internet laws, media, entertainment and telecommunication laws, trade secrets, advertising and unfair competition and regulatory laws. Our enforcement group works closely with Indian customs and law enforcement.

Our disputes practice also deals with domain name matters before authorities such as the WIPO and NIXI and trade name cancellations before the Registrar of Companies.

Our expertise also extends to advisory and contractual services in several ancillary areas such as media and entertainment laws, packaging and labelling laws, regulatory issues, internet, data security and privacy issues, among others.

We conduct IP audits and landscaping exercises, helping clients identify, secure and mine their IP assets.

日系企業に対してコメント.

Fidus Law Chambers is a boutique intellectual property law firm in India. Established in 2008, we have been widely feted for the responsiveness and business savvy advise of our lawyers as also for our consistent services across sectors and practice areas. We ensure our work is constantly viewed through the prism of accuracy, accessibility, accountability. We achieve this through practical and innovative legal solutions that help our clients succeed.

Our clients range from Fortune 500 and multi-national corporations to SMEs and start-ups, each with their unique challenges for which we create bespoke solutions. We have a number of clients based out of Japan, and we are also frequently delegated work by Japanese law firms. We are well-versed with the requirements of Japanese clients. At Fidus, our focus is on building a partnership with our clients. Our goal is not to merely be a service provider, but to ensure that our clients are able to leverage our research, experience and time bound interventions to make effective business decisions.

We have experience in all four areas listed by you. Moreover, our regular visits to Japan for interacting with Japanese patent attorneys has improved our standing and increased our reputation with them. Also responsible for our increased reputation is the fact that we possess a success rate of higher than 95 % in securing the grant of patents on patent applications and more than 92 % in respect of trademark applications. As far as designs are concerned, we have never had an application for which we are responsible refused by Indian Patent Office.

日系企業に対してコメント.

We pride ourselves on our ability to be both responsible and responsive in respect of the IP work entrusted to us. Being a medium size firm, we have the ability and the acumen to respond to enquiries raised by our clients immediately and pragmatically. Our charges are extremely competitive and we are always flexible in terms thereof to assist our clients. Furthermore, despite our regular planned visits to Japan, we are always prepared to make an unscheduled visit should our Japanese clients be faced with a situation that requires immediate face-to-face hands on advice. Additionally, our office is equipped with state of the art video conference facilities, which we encourage our Japanese and other clients to take advantage of.

INTTL Advocare is a boutique IPR law firm that offers the entire spectrum of professional services in all fields of IPR. Prosecution and enforcement of patents, trade marks, designs and copyright are all a part of the firm's forte, apart from IP Auditing and Licensing.

A team of skilled registered patent agents has significant expertise and experience in drafting and prosecuting patent applications in variety of fields including electronics, mechanical, biotechnology, food sciences, chemical etc. Their expertise also extends to analysis of prior arts and patentability analysis. The firm is equipped with the access to database(s) for effective and efficient patent search.

The firm has vast experience in rendering advice in relation to IP licensing agreements, and drafting them, keeping in mind local laws, and avoiding possible pitfalls. The firm also offers comprehensive IP Portfolio and Auditing Services to its clients.

In trade mark enforcement, the firm has successfully developed a number of unique solutions to challenges arising from changing technologies, and has successfully tackled problems of online and offline counterfeiting on behalf of various clients, particularly in electronics and food business. The firm has a robust two-layered Trade Mark Watch Service. The first layer includes a software which automatically scrutinizes the weekly Trade Marks Journal for conflicting trade marks. The second layer consists of manually perusing the weekly Journal, to ensure that no conflicting trade mark is missed, particularly device marks.

The firm also specializes in developing long-term patent enforcement strategies, and has to its credit, a large number of orders from Courts throughout India whereby our clients' patent rights have been protected by Courts. In doing so, the firm has overcome a large number of challenges arising from jurisdiction apart from pleas of lack of novelty and inventive step. In fact, the firm has filed maximum number of patent enforcement cases (over 90 in the last three years) all across India and has been successful in all of them.

日系企業に対してコメント。

INTTL Advocare is very grateful for its opportunity to work with Japanese firms and companies. This experience has been very valuable for our firm, because we share some core values with our Japanese colleagues, such as respect and integrity, which are very important for the long-term growth and prosperity of any firm.

Any Japanese firm which works with INTTL Advocare has experienced that we approach our work meticulously, respect the opportunity. Discipline and integrity are the core values of the firm. We have experienced that Japanese clients/firms are extremely diligent and prompt and we have been able to meet their expectations. We have always focused on our communication keeping it clear, simple and to-the-point.

India and Japan have deeply rooted culture and have huge business opportunities to grow together by way of exchange of knowledge and learning.

Our attorneys have deep expertise in all areas of intellectual property including patentability search, IP watching, IP portfolio analysis and IP licensing. We also provide strategic advice and assistance in IP due diligence, acquisition of IP rights, transactional work, portfolio management, investigations, documentary analysis for well-known trademark status, and overall brand strengthening, protection and enforcement advice. Our attorneys are also experts in dispute resolution including mediation, arbitration and litigation. Currently we handle a wide range of litigation including IP law, competition law, insolvency and bankruptcy, arbitration, etc.

日系企業に対してコメント.

We keep the business interests and commercial objectives of clients foremost while giving legal advice and recommending strategies for legal protection; we do not push clients towards litigation as the first solution to a legal problem; we ensure that all services are provided in a timely, budgeted and efficient manner. Our communications are prompt, simple, clear and informative so that every concern and question is addressed. We have a thorough knowledge of the challenges of the Indian market due to the huge diversity of the country and our clients benefit from this experience in very practical terms by anticipating legal risks and mitigating them or avoiding them altogether; our advice is multi-dimensional and full spectrum as it comes from the perspective of extensive experience of due diligence, advisory and transactional work, prosecution, contentious, enforcement and trial litigation. The firm has experienced rapid growth within a short time since its inception in terms of clients acquired, filings and transactional work handled, which are indicators of its strong fundamentals, maturity and capability.

Jupiter Law Partners advised on the Indian Intellectual Property related aspect of the Rosneft's acquisition of Essar Oil Ltd., valued at over USD 12.9 billion. Our advisory included review, revision and negotiations of the contracts and laws governing assignment, license & registered user.

Jupiter Law Partners conducted Patent Due diligence and IP Portfolio Analysis for acquisition of a 2000 patent portfolio providing insights on Technology Assessment, Market Utilization and Utilization Potential of the patents.

The Patent Team is regularly involved in conducting worldwide Patentability Searches and providing Patentability Opinions.

JLP has secured registrations of trade marks (without hearings) for over 95% of all the applications filed by us. This is a result of our accurate response to office action and compliance of all the formalities by anticipating the potential risks in registration of each particular mark. This saves additional costs and ensures timely registration.

JLP has assisted several clients in their trade marks portfolio management, including through drafting and recordals of the assignments & licenses.

JLP has assisted their renowned clients in drafting, negotiating and conclusion of software licensing contracts.

日系企業に対してコメント.

We work closely with several Japanese companies and firms assisting in patent search and preparation in the fields of electronics, mechanical and automobiles, successfully securing trade mark and design registrations in Indian and other countries in the Indian sub-continent, and conducting IP due diligence. We have a policy of responding within 24 – 48 hours of receipt of any communication, and providing competitive prices and commitment to our clients. The IP team has professionals with advanced and specialized degrees in law and technology.

Our relationship with Japanese clients goes back to more than two decades. We understand the cultural and professional nuances of our Japanese clients. We regularly conduct IP seminars in Japan with Tokyo Chamber of Commerce & Industry, Japan Chamber of Commerce and Industry, and Osaka Chamber of Commerce. We publish our quarterly IP Update in Japanese language. Our alerts on developments in the IP field are also sent in Japanese. Our key values of Client First and Integrity resonate with our Japanese clients who find us to be cost-effective, responsive and honest in our dealings.

Patent Infringement suit in Hon'ble District Court of Ghaziabad in State of U.P.

- Our Client a US company is a patentee in India of the registered Patent relating to aluminum conductor.
- We initiated infringement suits for the protection of its aforementioned registered Patent claiming permanent injunction restraining Indian company and its US collaborators from manufacturing, marketing, offering for sale, etc any products which amount to infringement of our Client's registered patent along with the relief of rendition of accounts, destruction of infringing goods, etc.
- We got initial success when Hon'ble District Court of Ghaziabad on the very first day of hearing allowed our application for appointment of local commissioner to go to the premises of the Defendant No. 1 and collect the sample of impugned product as well as make inventory of the incriminating material in relation to production, manufacturing and marketing of the impugned product.
- Later within one year of the institution of suit, the Defendant No. 1 offered to settle the matter amicably in order to end the infringement litigation.
- A settlement agreement was signed between our client and Indian Company.
- Interesting fact about this case in Hon'ble Ghaziabad district court: order was not issued by Hon'ble Delhi or Mumbai High Court but by a District Court in the State of U.P. where we have been able to convince the Ld. Judge about the existing valid patent of our client and infringement of the same and able to get an interim relief in the matter.
- This shows that not only the Ld. Judges in big metro cities but also the Ld. Judges in smaller cities and towns of India are receptive toward IP rights and willing to grant relief if a case of infringement is made out.

GETTING A WITHDRAWN APPLICATION REINSTATED UNDER RULE 137 : NTT DOCOMO INC. VS. ASSISTANT CONTROLLER

- Reinstatement of a withdrawn Patents Application in IPO- **First such case in Indian Patent Law History**
- Another Indian Patent law firm was entrusted with the filing and prosecution of Indian Patent Application number 4851/CHENP/2007 and 4814/CHENP/2007 before IPO by Japanese Company NTT DOCOMO, INC. (petitioner/applicant), through their Japanese Attorney.
- These two applications have similar details including similar title.
- Due to mistake, wrong application was withdrawn and the application was transferred to our firm.
- After failure of efforts with IPO by filing petition praying for reinstatement and allowing for further prosecution of the said application for patents according to the Patents Act, 1970, **we proceeded to file writ petition before the Hon'ble Madras High Court against the Indian Patent Office.**
- The Hon'ble Madras High Court has allowed the writ petition and directed the Ld. Controller of Patents to reinstate the Patent Application no. 4851/CHENP/2007.
- The Hon'ble Court stated that the inadvertence of the withdrawal is apparent and that the petitioner's patent application should be allowed to be prosecuted.

PUBLICATION:

Mr. Sharad Vadehra has authored a book on Indian Patents Law and Practice which has been published in Japanese language by Chosakai. The hyperlink of the same is <http://books.chosakai.or.jp/books/mokuroku/newpub.html>

All types of Patent Searches, Preparation/Drafting, Office Action Responses, Landscape/Analytics, FTO analysis, infringement/Validity opinion, Illustrations, Proofreading, etc. including TM searches, Design searches, among others.

The firm has a heavy litigation practice with over 50 Cases being represented across jurisdictions in India. The firm has also expanded its practice to Tax, Corporate, Labor, Commercial, Media/Entertainment, and other areas of law.

日系企業に対してコメント.

K&K is a growing team of over 140 professionals spread across 8 offices in India and 6 offices outside India in Vietnam, Malaysia, Sri Lanka, Bangladesh, Nepal, and Myanmar. The firm has a strong domestic practice which allows it to draft patent specifications, and conduct all types of searches/opinion instead of only focusing on prosecution.

The firm's litigation practice is growing wider with coverage now including Tax, Corporate, Commercial, Media/Entertainment, Banking and Labor.

The firm has worked with a number of Japanese Corporations in the past including but not limited to Kyocera, Fujitsu, Nitto Denko, Panasonic, Kyoto University, among many others.

We are a newly incorporated IPR consulting firm working in the techno-legal space in India, with a strong focus on the technical side of IPR work (especially patents). As engineers who have gained experience in IPR, we specialise in patents in the fields of electrical, electronic, mechanical and computer engineering. We provide reliable and high-quality technical consulting services and support throughout the prosecution and litigation processes to law firms and corporate organisations. We work with a strong network of lawyers and industry professionals to provide our clients with the best possible services.

Our services are flexible and are molded around what our clients need. These services include, but are not limited to: Patentability analyses (including Freedom to Operate reports and Prior Art searches), Technical interpretation of patents and support during prosecution and litigation processes.

日系企業に対してコメント.

Japan is a global centre of technological growth. A lot of that technology is coming to markets like India, where there is a need for technical expertise and support. We provide that support and expertise so that Japanese firms can commercially succeed in India. We are new, but we are efficient.

We work on the principles of reliability, efficiency and trust while using the best available technology. Japan's work culture and ethic is one that we strive to achieve. Working with Japanese firms will enable them to utilise our skills while providing us the opportunity to learn from them.

その他得意事項 (ex: 特許性調査、IP ウォッチング、IP ポートフォリオ分析、ライセンス契約等)

Being part of a full-service law firm, in addition to intellectual property prosecution and enforcement, we also specialize in providing assistance to clients on IP transactional matters, including on technology transfer agreement, license agreements (trademark, patent, copyright, design, know-how, etc.), IP assignment agreements, etc. A few of the key IP transactions that we have worked on include, assisting Tata Global Beverages Limited in their joint venture agreement with Starbucks (this involved drafting and negotiating trademark and technology licensing agreements, etc.), assisting DLF Ltd. in its acquisition of Amanresorts Ltd. (this transaction was also driven by the intellectual property acquisition), etc.

Further, the IP team at the Firm also regularly advises client on Indian Data Privacy laws, including on steps to be taken to comply with the requirements thereunder.

日系企業に対してコメント.

L&L Partners is an institutionalized law practice, having a rich and diverse history of more than two decades. Our know-how and advice to our clients are tailored to be value-centric and all-rounded in-line with the client's business and future goals. Punctuality and strict adherence to timelines form part of our core philosophies and these have guided our way to establishing life-long relationships with our clients. We have dedicated and well qualified attorneys having post-doctoral degrees in law and sciences and skills that match the client's requirements to handle their matters competently. Our endeavor is to be trusted advisors of our clients and to aid them in meeting their business goals, while at all time being in compliance with applicable laws.

(1) The firm is extremely well known for being one of the rare firms in India with the capability to draft patent specifications and applications that can be directly filed as international applications / national applications in US / EU. Till date, the firm has drafted more than 3000 patent specifications.

(2) The firm is highly reputed for its patent filing and prosecution in the high-tech sector, in pharma and biotechnology sector as well as in the Engineering sector.

(3) L&S is also the market leader in providing legal assistance for Plant Variety Protection (PVP) in India, which is the substitute for patent protection for plant varieties, providing end-to-end services, right from drafting and filing PVP applications to assisting in litigation.

(4) L&S also specializes in handling contentious and complex patent / trade secret / know-how disputes, such as where the dispute requires deep knowledge of technology, or where there are simultaneous proceedings across different forums or across different jurisdictions within India, or where the disputes have cross-border angles.

日系企業に対してコメント.

Lakshmikumaran & Sridharan has an established Intellectual Property (IP) practice consisting of attorneys, scientists, and engineers from reputed institutions in India and abroad. We provide services for searching, drafting, filing, prosecution, valuation, licensing, enforcement, and litigation across IP domains including Patents, Designs, Copyright, Trademarks, and Plant Variety Protection. The in-depth domain expertise, technical knowledge, and legal skills available in-house makes us a one-stop IP solution provider. We use state-of-art IT and physical infrastructure for reliable operations.

We are an ISO 9001:2015 and ISO 27001:2013 Certified Law Firm. Quality assurance is built into our systems and processes at all stages.

LexOrbis acts as one stop shop for all IP requirements for our clients in India and South Asia. We are ranked amongst Top-3 firms in India for drafting new patent cases for inventions originating from India. We draft and file about 800 new patent applications each year in India. We also file and prosecute about 2000+ national phase and convention patent applications each year. Our trademark and design department also ranks amongst the top tier IP firms in India. We have a strong team of over 18 lawyers engage in strategizing and handling civil, criminal and administrative enforcement of trademarks and copyright in India and this team work with the specialized investigators to identify and locate infringers. We have organized investigation of over 1000 infringing businesses in India, conducted raid actions against 500+ businesses resulting in registration of over 400+ criminal cases, seizure of over 500,000+ counterfeit goods and arrests of over 400 counterfeiters and pirates. Our patent litigation team comprising of lawyers and patent attorneys are handling some of the leading patent infringement cases before the High Courts in Delhi and Mumbai.

日系企業に対してコメント.

India is one of the top emerging market in the world with over 7% growth rate for the past one decade. IP laws and system play an important role in the overall economic development of the country and particularly for the Foreign Direct investment by the multinational companies. The Government of India has realized this importance and has initiated several programs to strengthen the IP regime in India such as appointment of new examiners to cut down the delays in grant of patent and registrations of trademarks, designs and copyright in India and introduction of Commercial Court system in India to shorten the time for issuance of final court decisions in IP infringement case. The Government is also dedicated for developing robust system under it prime programs such as "Ease of doing business" and "Make in India".

India and Japan has a long history of economic cooperation and the current heads of these two nations have vibrant and strategic visions for the economic growth of these two countries. India therefore appears as most prominent destination for Japanese companies.

RAHUL CHAUDHRY & PARTNERS offers legal advisory services in multiple practice areas and specializes in services pertaining to the protection of Intellectual Property Rights in India and abroad. We work to claim, uphold, protect and leverage the Intellectual Property assets of individuals and organizations. Our approach to every case is business-centric, and we are well-aware of the risks of adopting a one-size-fits-all methodology to protecting IP assets.

Our services include IP analytics, strategy, innovation management and protection, corporate, commercial and transactional matters, operational strategies and dispute resolution. Over the years we have developed a unique skill set specialized around prosecution, enforcement and litigation of IP rights in India as well as several other jurisdictions, offering reliable legal counsel to both national and international clients.

Rahul Chaudhry & Partners has fortified and expanded its IPR practice in the last year with the induction of IP attorneys and patent agents and there has been tremendous growth in its form and structure. The firm is in the process of switching to 100% automated IP management system. The firm's strength lies in flexibility of team composition – wherein we form teams for a client's assignment, depending on the nature of work and on the basis of experience.

The firm's Patent team over the last few years has had a wide experience in handling PCT applications, Indian applications and patent applications across jurisdiction. The team over the last one year has drafted patent applications for MNCs and Indian R&D units which have been successfully filed / granted in various jurisdictions like India, USA, Europe and PCT.

The firm's Trademark department has witnessed huge consolidation/transfer of matters/portfolios from both existing and new clientèle in the last year. It has successfully managed trademark oppositions and rectification actions for its multi-national and Indian clients across all section of the industries in the last year.

The firm's Litigation team has expanded to include both IP and non-IP litigation and has worked on some of the most on some of the most important and challenging litigation cases and anti-infringement and anti-counterfeiting activities all over the country – including both civil and criminal. The firm has successfully litigated many trademark and copyright matters and obtained ex-parte injunction from Hon'ble Court over the past year.

日系企業に対してコメント.

Our firm aims to optimize the mutual relationship between Japan & India by regularly advising Japanese companies doing business in India, directly or through agents. We have various Japanese companies as our client's whom we advise across all practice areas and industry verticals, with special focus towards protection of their Intellectual property filings in India and abroad. The firm has a proven record of successfully and satisfactorily representing several Japanese multi-national companies.

Our firm also regularly participates in international conferences and seminars wherein we get the opportunity to interact with the Japanese companies in person and which is mutually beneficial in garnering valuable insight on various legal and commercial needs of Japanese clients.

Remfry & Sagar is a full service IP boutique which also advises clients on corporate issues. It is arguably the second oldest IP practice in the world and among the largest IP firms in the country. It has a strength of over 100 professionals and 150 support staff and services more than 8000 clients in over 70 countries. The Firm has 14 partners - Ashwin Julka is the Managing Partner. Further, about 15-20% of all inbound IP work finds its way to the Firm.

Patent team specifics:

From handling the first patent issued under the Patents and Designs Act 1911 to filing nearly 5000 patent applications annually, Remfry & Sagar is well known amongst all domestic and international clients who appreciate the depth of experience its 100 member strong team brings. We provide:

- Protection of patent rights across a range of technology sectors including chemistry, biotechnology, pharmaceuticals, electrical, electronics, food and related fields, telecommunications and software;
- The full spectrum of patent protection services including search and watch activities including patentability search, carrying out due diligence investigations, and providing freedom to operate and invalidity opinions all of which are supported by subscriptions to high end IP databases;
- Drafting patent specifications in all fields of technology;
- Proficiency in filing and validation of patent rights in India. The filing department is aided by a team dedicated to docketing instructions/timelines and ensuring compliance with all procedural formalities;
- Detailed, solution centric advice on filing and prosecuting patent applications taking into account local patentability prohibitions, long term enforceability criteria and the commercial objectives of our clients;
- Expertise in the initiation of, and defence against, opposition and revocation matters before the Patent Office and the Intellectual Property Appellate Board (IPAB);
- Advice on the assignment and licensing of patent rights to leverage the maximum value from IP assets and effecting seamless recordals of such instruments;
- Services of docketing and maintaining patent annuities ensuring the subsistence of valuable rights.

Further, the Firm has pioneered patent litigation in India's post TRIPS (the Agreement on Trade Related Aspects of Intellectual Property Rights) regime, advising, and acting on behalf of, leading international pharmaceutical companies on seminal matters including Section 3(d) of the Patents Act and the issue of compulsory licensing. More recently, telecom disputes involving Fair, Reasonable and Non-Discriminatory (FRAND) licensing agreements in Standard Essential Patents (SEPs) have been an area of focus. With one of the largest, most experienced patent litigation teams in the country, our capabilities include:

- Preparing dynamic, informed litigation strategies with clear risk and cost analysis;
- Enforcing patent rights through the institution of infringement suits, filing of writ petitions, special leave petitions, revocation petitions etc. before various district courts and high courts in the country, the Supreme Court of India as well as handling proceedings before specialist tribunals and administrative bodies;
- Advising on alternate dispute resolution through arbitration, mediation, conciliation, etc. in cases where formal litigation is not the best option for a client;
- Devising effective monitoring and enforcement programs to ensure that technology license agreements are being honoured;
- Forewarning and assisting clients before an actual dispute arises, with the aim of placing our clients in the best possible position in the eventuality that litigation does arise;
- Assisting clients with border control measures including the filing of custom watch notices.

Our patent litigation specialists are skilled at handling IP disputes in all jurisdictions and before all fora in the country from the District Courts to the Supreme Court. Our extensive experience of nearly 200 years comes especially handy when tackling local complexities.

日系企業に対してコメント.

- Second oldest IP practice in the world and largest in India. More than 8000 clients in over 70 countries.
- Experienced attorneys hold advanced degrees in law and sciences.
- Three tier supervision of each matter.
- Records are fully digitized and infrastructure - state of the art.
- In-house proprietary database of all data published by Indian IP offices.
- Award winning proprietary Case Management Solution which enables end-to-end case docketing, tracking, completion and delivery to our clients.
- Client centric approach with emphasis on quality service with quick turn-around time.
- Firm members visit Japan frequently to apprise clients on latest IP developments in India and understand clients' specific requirements.
- Firm organizes Indian IP awareness programs for in-house counsels of Japanese corporates.
- Remfry collaborates actively with JETRO.

- RNA's patent attorneys are facilitator/s registered with Office of the Controller General Patents, Design & Trademark, Government of India
- RNA has been actively involved in IP Transactions, portfolio analysis, regulatory and advisory work
- RNA has assisted a number of start-ups in relation to IP documentation, data privacy and trade secret protection.
- RNA has filed numerous IP enforcement actions and our success rate is 90% in interim injunctions and final judgments.

日系企業に対してコメント

India is one of the fastest growing economies of the world and is ranked amongst the Top 10 attractive destinations for inbound investment. India-Japan relations have traditionally been strong and bilateral ties have further strengthened in the recent years on account of successful visits by leaders of both countries. Taking into account increased investment by Japanese companies and Japanese companies participation in several infrastructure projects. This is the right time to strengthen your Patent portfolio. RNA being a one-stop-shop for clients offers creative and cost-effective solutions to IP issues that companies face in relation to protection, enforcement and commercialization of IP rights. Our team has closely worked with Japanese including visiting Japan for seminars to gain business and cultural understanding. We are flexible in our dealings and known for client centric approach.

SSRana & Co. is a leading full-service law firm recognized for its knowledge and commitment to its clients. The Firm has a dedicated team of professionals specializing in various areas of practice including Intellectual Property Rights, Corporate and Commercial Laws, Dispute Resolution, etc. For close to three decades the Firm has been working with its clients, anticipating their business requirements, and offering proactive, timely and qualitative solutions. The Firm is also registered as 'Advocate-on-Record' with the Hon'ble Supreme Court of India which equips the Firm to represent its clients right from the Lower Courts to the Apex Court in the country. It is also one of the few Firms in India which is a single point of contact for its international Fortune 500 clients with respect of their IPR matters in the SAARC region, namely, Bangladesh, Pakistan, Nepal, Bhutan, Sri Lanka, Maldives, Myanmar and Afghanistan.

Because of the Firm's values, best practices and a robust IT system, the Firm has been awarded the following certifications –

1. **ISO 9001: 2015** - Certification, making the Firm's commitment towards best practices aimed at improving its business performance and providing proactive and high-quality legal services to its clients
2. **ISO 27001: 2013** - (Information Security Management System) from DNV-GL (a European based International Certification body)
3. **ISO 50001: 2011** - (Energy Management System) Certifications.

日系企業に対してコメント.

The Firm's Information Management System, internally referred to as IMS, assists in the tracking of trademarks, copyrights, patents and all other forms of Intellectual Property throughout their lifecycle. The software is of much utility for all the employees of the Firm as they use these tools to manage databases of trademarks, patents, designs, etc., automate forms and correspondence for new and ongoing matters, manage deadlines and track possible violations of legal rights for subsequent prosecution. As a Law Firm serving clients in a plethora of industries including inventors and companies with patented products or services, IMS helps centralize up-to-date client information, license agreements, and opposition filings, and not to mention conduct conflict checks in a single repository.

The Firm believes that the documentation and security of an organization's intangible assets is vital to reducing the risks to its intellectual property, including the loss of valuable innovations through inadvertent disclosure, employee departures, illegal publication, and even misappropriation by competitors. The importance of a secure, well-documented system and software solution tool that collects, catalogs and protects this vital information from idea inception to patent or trademark protection is critical. **It is because of this outlook that the Firm can proudly say that they have moved on from a person centric approach to a process centric approach.**

The Firm also has a trusted Data Loss Prevention (DLP) software which provides it with the tools they need to discover, monitor and secure data while complying with internal and external regulations. The system has been designed so that it's ready to be used straight out of the box, offering over 70 pre-defined policy and risk settings, which the Firm can adjust and turn on (or off) according to it's everyday business needs. This equips the Firm to monitor all in-flow and out-flow of data, especially for the users who are working from home.

Our firm has a particularly strong Digital Brand Management practice which is offered through Metarion Knowledge Solutions Private Limited. The team at Metarion® is responsible for monitoring, managing and protecting brands on behalf of our clients. As part of the service, Scriboard [alongwith Metarion] monitor brands in the digital environment to supplement, protect and enhance brand reputation by using proprietary software and analytical tools. We strive to provide our clients with a complete online brand protection solution starting from monitoring the internet [websites, social media, mobile applications, marketplaces] and identifying instances of brand infringement or abuse to removal of such instances or risks by initiating legal actions against the perpetrators. This service also includes recovering domain names from cybersquatters by initiating proceedings against them under the eUDRP or INDRP – as the case may be.

Domain Name Disputes

The firm regularly recovers domain names for its clients by initiating proceedings under the Uniform Domain Name Dispute Resolution Policy [UDRP] and the .IN Domain Name Dispute Resolution Policy [INDRP]. The firm has developed great renown over the past few years by securing domain names for various organizations. In the past few years, the firm has successfully evicted cybersquatters from both the Indian Country Code Domain Names and Top Level Domain Names for clients such as **Rhiti Sports Management Private Limited and Mr. MS Dhoni – an extremely well-known cricketer, Wells Fargo, General Motors, Hike Private Limited, Schlumberger Limited, Aon, Havells, Godrej and IndianOil.**

We are a full service IP Firm with a young and dynamic team of Lawyers. We pride ourselves in being a boutique Firm with just enough work and people to have a hands on approach on each and every file. Every conceivable IPR related service is rendered. Our forte definitely being anti-counterfeiting activities. We are different from other law firms in that our lawyers personally oversee anti-counterfeiting activities as opposed to other firms where such work is delegated to investigators who oftentimes do not adhere to ethical standards.

Our Founding Partner Dahlia Sen Oberoi was the first lawyer in Asia to initiate Ambush Marketing activities vis a vis Sporting events. She was also the first to file a Customs application for protecting trademark infringement in respect of imported goods. She has also pioneered reading and legally assessing manuscripts for Publishers to rule out post publication legal issues, in India.

日系企業に対してコメント.

Our Founding Partner Dahlia Sen Oberoi is one of the few Indian IP Lawyers to have been invited by JETRO to travel to Tokyo and address Japanese firms and have a one on one interaction. Our Firm has had the honour and privilege to work with some very respectable Japanese firms such as Casio, Epson, Yamaha to name a few. We assure our Clients not only the highest standard of professional services but also adherence to the highest standard of ethics. We shun unscrupulous work ethic and no matter what is at stake, never compromise on an ethical rendering of services. When working with us, Clients can be rest assured that there will be no giving in to corruption and high moral and ethical standards will be upheld at all times.

We specialize in conducting searches for patents that may offend the scope of one's own property or keep a standing watch on activities of competitors. We also specialize in conducting trademark clearance searches, having an understanding of the importance of adoption and inception of trademarks to business. Our patent attorneys identify, draft and prosecute patent applications in the fields of software, electronics, telecommunications, wireless communication technologies, semiconductors, biomedical devices, pharmaceuticals, and petrochemical, chemical, electrical, and mechanical engineering.

We have extensive experience in handling contentious proceedings such as oppositions and cancellations before the Patents Office, Trademarks Registry, and the Intellectual Property Appellate Board.

We also have a network of counsels in the Asian subcontinent and we take care of patent and trademark applications and prosecution matters for overseas clients in Nepal, Bangladesh, Pakistan, Sri Lanka, Malaysia, Thailand, Singapore and Maldives. Similarly, the Firm represents Indian clients in their efforts to obtain patent, design and trademark registrations in other jurisdictions, particularly the US, EU, Middle East, South East Asia and Japan.

Intellectual Property Enforcement and Litigation forms an integral and important component of our IP Practice. We handle intellectual property litigation matters in courts in India involving patent and design infringement, trademark infringement; trade dress and trade name violations, passing off, copyright, and other forms of intellectual property violations including protection of confidential information, and domain name disputes.

We work extensively in transfer of technology transactions, both on behalf of the licensor and licensee, and therefore are in a position to offer advice from both perspectives. We routinely advise clients in structuring of franchises, on transactions involving sale of trademarks along with other assets, licensing of content, software development agreements, technology transfers and patent and know-how licenses. Complex issues of ownership and documentation arise where parties undertake collaborative efforts.

We are equipped to carry out intellectual property audits for our clients wherein we would, in addition to other aspects, look into the documentation of the existing portfolio, uncover unprotected intellectual properties that clients may be interested in securing protection for, review documents of ownership, suggest structures and procedures to be adopted to minimise loss of intellectual assets, and equip management to take decisions on leveraging its intellectual property. We actively engage in policy and regulatory work in India on behalf of many of our clients in the area of IP laws. We work closely with industry chambers in putting together briefs for future reforms. In partnership with industry and government, we have been closely involved in shaping regulatory policy and spearheading legal reforms in India, including the laws relating to Data Theft and the Existence of Cartels.

日系企業に対してコメント。

Our IP team has 3 partners and over 20 associates, and is spread across New Delhi and Mumbai. We currently handle over 5,000 patent and trade mark applications and provide assistance to over 500 clients. We assist on over 100 transactions annually to clients in every sector.

We have extensive experience in representing Japanese companies. The broad nature of matters have pertained to procurement and measures for enforcement of their IPRs before various fora. The scope of advisory extends to the law of confidential information, trade secrets and unfair competition.

We have been constantly conducting Patentability searches, Freedom to operate searches and other relevant searches. We handled IP valuation for our domestic client from software sector We have been working towards commercialization of patents for our domestic client. We have secured US patents for our domestic clients. Additionally, we have handled TM prosecution for International TM applications.

日系企業に対してコメント.

Japan and India have been collaborating in different projects. Since 2015, the two Asian countries have been associated in the field of Industrial Property. A Memorandum of Cooperation (MOC) was signed by the countries in order to enhance the investment and business expansion by Japan's industrial sector in India. India is a huge market with incredible potential for becoming a home for innovation, research and development, which will result in its becoming a leading market in the world.

One of the latest developments in the economic relations between the two Asian countries – Japan and India is the implementation of Japan-Indian Patent Prosecution Highway (PPH) in early 2019. It is essential for foreign nationals and legal entities to build up their IP portfolio in India. Indian IP system witnesses amendments in recent years that provides faster IP protection and ensures strong enforcement, thus providing efficient IP system.

The IP Practice is a strong team which takes care of complete spectrum of services in patents, trademarks, domain names, copyrights, geographical indications (appellations of origin), designs, and other related rights.

The Practice Group's IP services include watch service, prosecution, investigation, litigation, interferences, negotiations, licensing, portfolio management, assignments, registered user agreements, transfer agreements, IP due diligences, etc.

The Practice Group is representing and managing patent portfolios of top multi-national conglomerates in Petrochemicals, Telecommunication, Pharmaceuticals, Infrastructure, Food & Beverages, Clothing, Industrial Engineering, Biotechnology, Automation, Entertainment & Media, Electronics and Life Sciences.

日系企業に対してコメント.

India remains one of the world's most challenging major economies with respect to protection and enforcement of IP. In terms of IP, India is a fast growing market. The laws for protection of IPR are at par with International Standards. With an improvement in examination and disposal of IPR applications, the commerce and industry ministry taking steps to strengthen the intellectual property rights regime in the country. We welcome all Japanese companies to choose and protect their innovations in India as well. Further, You will be dealing with a firm which has established its name in IP over last 8 years. Looking forward to a long and fruitful professional relationship.

Handled all kinds of IP related work (Patent, Trademark, Design and Copyright) and litigation while I was working with an IP Law Firm from 1987 to 2003.

Drafted patent specification which were to be filed at the US patent office during my stint at INTEL India of USA.

Have conducted investigations to ascertain duplication of the Italian products during my stint at Italian Embassy in Delhi.

Drafting and filing Indian and PCT patent applications and also national phase filing.

Have earned more than 30 years of experience now.

日系企業に対してコメント.

India has large consumer base for all kinds of goods and services and therefore all kinds of IPRs needs to be protected in India. Also, it is not a costly affair to protect IPRs in India. Further, Indian Govt. has made all IP laws TRIPS compliant. Computerization and digitization of all kinds of IP related documents has been done and it very easy to know the status of an IP application online. IP enforcement agencies are very strong in India and courts of laws are taking due action against the IP infringers in order to protect the rights and interest of the IPRs owners. Therefore it is advisable to protect all kinds of IPRs in India.

日系企業に対してコメント。

Let us grow together – integrally and ethically. As we grow, we have expanded our idea of what diversity means, seeking out to work with people from different experiences and a broad range of cultures and identities along with the perspectives and viewpoints they bring us. These perspectives help us to better understand our strengths and offer best services to a broader and more global market, capitalizing on opportunities that we might never have seen otherwise. We are confident that our alliance would only foster the ties between our nations economically as well as strategically.

Advaya Legal is a full service commercial law firm headquartered in Mumbai having associate offices in major cities across India. Our firm represents several international and Indian companies across different sectors on all legal aspects of doing business in India such as corporate and commercial law, employment, litigation and intellectual property. Although a relatively young firm, Advaya has been noteworthy in the fast growing Indian market because of its business oriented approach and high quality work. Some of our notable clients include **Facebook, Lenovo, Samsung (C&T), Vistara Airlines (TATA SIA JV), Omori Group, Mitsui, Faber Castell, Accor Group (Novotel, Sofitel & Ibis), Nivea, Orange Group (Nigeria), Maersk BPO and NCDEX.**

Given the challenges involved in protecting and enforcing IPR in a market such as India, our IPR practice covers both transactional and contentious matters. On the transactional side, our practice ranges from managing intellectual property portfolios (including filing, registration and renewals) to advising on entertainment law, brand acquisitions, domain names, and security interests in intellectual property. We also advise on assignment, licensing, franchising and other components of commercial law and related legal aspects of technology, representing clients across sectors ranging from technology, education, animation, media and entertainment, airlines, etc. We have also extensively dealt with related subjects such as trade secrets, competition law and international trade law.

On trademarks, we have handled a variety of assignments such as online trademark searches, filing of trade mark applications, procedural compliances, renewal, opposition, rectification and removal of trademark from the Trademarks Registry, action for infringement and passing off, assignment, licensing and transmission. We advise multinational as well as domestic companies on their international trademark portfolio management including prosecution and registration of trademarks through the Madrid Protocol.

As regards copyright, we have assisted clients with registration of copyright, assignment, infringement of copyrights, drafting deeds for transfer of copyright and royalty, issuing cease and desist notices, etc.

日系企業に対してコメント

As a mid-size full service firm, we take pride in providing clear, solution-oriented advice as we perceive our role as a “business facilitator” (but not hesitating to say ‘no’ where required!). Being familiar with the unique cultural challenges faced by multinationals in India, we emphasize on accessibility of our lawyers, quick turnaround and clear visibility on timelines. Our core competence is in our ability to assess business risks as we act as one-stop service provider for multinationals doing business in the Indian market.

AZB & Partners ("**Firm**") is equipped to serve as a one stop shop for all intellectual property matters. The intellectual property practice group of the Firm counsels a wide range of clients on how to develop, register and safeguard their valuable intellectual property portfolio ranging from trademarks, domain names, patents, copyrights, designs to confidential information.

The intellectual property team at the Firm assists clients with prosecution and registration of intellectual property at all registries in India. With a view to providing industry specific technical expertise to address client requirements in the areas of patents and technology, members of the Firm are registered patent agents. The Firm also maintains an effective working relationship with a panel of technical experts. The Firm liaises with foreign associates and secures registrations of their clients' intellectual property in various foreign jurisdictions. The Firm has also advised and assisted its clients in filing international applications through the Madrid Protocol.

The Firm handles trade mark portfolios and enforcement for clients in a broad spectrum of industries such as consumer goods, new technology, apparels, media, chemicals and pharmaceuticals, sports management, infrastructure, financial services and insurance etc.

The Firm is extensively engaged in protecting and enforcing clients' intellectual property rights by undertaking contentious proceedings before tribunals, High Courts and other Courts in India. The Firm has handled litigation and rendered enforcement advice in the areas of trade marks, trade dress, copyrights, patents, designs, domain names and other cyber law / information technology issues, plant varieties, advertising laws, data protection and other related areas. The Firm renders advice and frames strategies in respect of infringement and anti-piracy actions, initiates Court actions, drafts pleadings and executes enforcement actions against infringers/counterfeiters on behalf of various clients on a continual basis. Recently, the Firm successfully advised and represented Torrent Pharmaceuticals Limited against Wockhardt Limited before the Supreme Court in a passing off action where the Supreme Court clarified key principles of passing off and acquiescence. The Firm also represented Skechers U.S.A., Inc. against Pure Play Sports in the Delhi High Court wherein a first of its kind and precedent setting order was passed by Delhi High Court granting costs to the tune of INR 87,00,000 (USD 127,941 approx.).

The Firm conducts investigations which includes gathering market intelligence on individuals and entities involved in infringement and counterfeiting as well as the channels of trade of counterfeit products. The Firm strategizes towards effective enforcement of IP rights for varied clientele of the Firm. The Firm is also involved in negotiations for settlements and coordinating best interest of client. The Firm also renders 'watch' services to several of its overseas and domestic clients.

The Firm also advises on transactional aspects of intellectual property that include drafting, negotiating and advice on licensing, franchising, acquisitions, co-branding, co-existence, etc. The Firm has advised clients on effective strategies to counter parallel importation. The Firm also, on a regular basis, renders services on issues relating to confidential information, trade secrets and technical know-how.

In addition to the above, the Firm has been retained for carrying out due diligences on intellectual property related transactions and to conduct brand audits of intellectual property portfolios for its clients.

日系企業に対してコメント.

The Firm has advised numerous Japanese clients on various trade, investment and intellectual property matters. The key strengths of our Japan practice is our extensive experience, committed team and in-depth knowledge of the legal and business environment in India and Japan. With the emerging commercial and strategic relationship between Japan and India and huge investment by Japanese companies in India, it is imperative that the IPR assets are adequately protected in India, continuously monitored and enforcement actions are initiated against third party infringers.

We are trusted advisors for many clients such as Nintendo, TOTO, ORIX Corporation, Kawasaki for handling and enforcing their Intellectual Property before various fora. The team is also adept at handling complex commercial transactions driven by exploitation of intellectual property, licensing arrangements and other alliances involving trademarks, copyright and information technology.

日系企業に対してコメント.

Japan has consistently been a top filing jurisdiction for patent, trade mark and design applications in India. Japanese Companies' confidence in India as a pro-IP destination would undoubtedly be further boosted by the recent legislative, administrative and regulatory changes which are aimed at promoting a conducive environment for protection and enforcement of IP in the country.

First of all, 'GNA Patent Gurukul', the training wing of GNAs has imparted training to hundreds of professionals from all walks of life and technical field to become patent proficient, so much so the protection of inventions through patenting has become a habit in India. Technology transfer initiatives through GNAs and Patent Bazaar is also outstanding. GNAs have emerged over the years as one of the largest patent filing IP Attorneys in India, who files patent applications for Indian origin innovations by Indian researchers and inventors. The provision to oppose published patent applications (instead of third-party observations) is unique in India. GNAs has emerged as the largest filer or support provider for filing pre-grant oppositions in India. Most of these pre-grant oppositions have led to rejection of weak or frivolous patent applications prior to grant or led to settlement between parties. Post-grant opposition filings on behalf of Indian Companies is another area with high success rate of GNAs. Dr. Nair's team also assists research and documentation in enforcement litigation and more in defence of infringement suits and injunction applications as well as counterclaims for revocation.

日系企業に対してコメント.

Our Dr. Nair has been visiting Japan as an Indian Government's official delegate as well as Chairman of Pharmaceutical Panel of Export Promotion Council since the 1980s. His and our message to Japanese firms is that Japan should take India more seriously and intensively with focus as a partner for joint ventures and green field investments. Past efforts may have failed or not progressed satisfactorily due to wrong selection of Indian partners. We, at GNAs/Gnanlex can provide positive support to Japanese firms. We recognize the integrity, transparency and quality excellence that Japan is looking for. India and Japan has a natural fit and affinity dating back thousands of years.

Awards

Managing IP/IP Stars' Award for 'Indian IP Transactions/Advisory Firm for the year 2018

Rankings and Recognitions

Ranked/Recognised in Legal 500, Chambers & Partners, WTR 1000, IAM Strategy 300, WIPR Leaders, and Asia Law.

Forte

Our IP team is equipped to handle all aspects of IP Practice (including patents, trademarks, copyrights, designs, plant varieties, bio-diversity, geographical indications) in India and overseas. Although being a full-service law firm, the Firm's dedicated IP team functions like any other boutique IP firm. The Firm's other practice areas complement the IP practice to provide clients holistic advice (than being merely IP centric) in the fields of prosecution, patent drafting, management, enforcement, contentious matters, advisory and transactions. The team does not function in a departmentalized manner so that the associates working on a portfolio end up working on the entire lifecycle of IP i.e conception, registration, protection, management and exploitation, which helps in providing holistic advice (unlike a departmentalized practice where associates working in the search/enforcement department may not be in-sync with the litigation team who intends to protect the same IP). Our fees are flexible and provide customized options depending on the budgets. With our dedicated Japanese desk, our team members regularly visit Japan.

日系企業に対してコメント

Our Firm is a one-stop solution for all legal aspects including IP aspects. More than concentrating on number of applications filed, we take pride in our advice which is holistic considering all aspects of Indian law. In short, we are not agents, we are Lawyers who are well versed with all aspects of IP Practice (including patents, trademarks, copyrights, designs, plant varieties, bio-diversity, geographical indications) and are working on the entire lifecycle of IP i.e conception, registration, protection, management and exploitation.

Krishna & Saurastri Associates LLP is a full-service Intellectual Property and Technology law firm. The firm represents clients from all major industries and sectors. The firm's team includes specialists with niche expertise and industry experience. Most of the firm's professionals have formative degrees in natural sciences, engineering, arts or business, prior to qualifying as lawyers, which is useful while navigating complex intellectual property and techno-legal issues. The firm has been ranked among the top tier Indian IP law firms consistently by leading domestic and international publications including Legal 500, MIP, IP Stars, IAM, Chambers & Partners, Asia Law, etc. The firm's practice areas include patents, trademarks & geographical indications, designs, copyrights, mergers & acquisitions, technology transfers, licensing, franchising, joint ventures, litigation and arbitration, plant variety protection, biodiversity laws, competition law, international trade laws, regulatory issues, food, drug & medical device laws, media, advertising, broadcasting & entertainment laws, trade secrets, data protection and information technology laws, anti-counterfeiting, customs and border enforcement laws.

日系企業に対してコメント.

For several years our firm has handled IP matters for and on behalf of Japanese corporations. Our current Japanese clients include large and medium sized companies engaged in the business of automobile, electronics, electrical, mechanical, telecommunication, software, gaming, consumer goods, chemical, pharmaceutical, and biotechnology, character merchandising, apparel, etc. We are well versed with the culture, business practices, and quality of service demanded by Japanese companies. Additionally, we visit Japan often for face to face meetings with existing and prospective clients. We also assist Japanese trade organizations in gathering information on IP protection and enforcement in India.

Royzz & Co, before being restructured to a full service firm, was a leading IP & IT Boutique firm and evolved to become a full service, which was a natural growth encouraged by its diverse clients and track record of success in litigation, dispute resolutions and handling complex transactions.

The team has Patent Attorneys and Agents from various domains like Electronics, Software, Life Science, Chemical, Mechanical, Automobile, Biotech. The firm has clients like Indian Institute of Technology, several international universities and MNCs as its Clients for Patents.

The firm has a huge portfolio of Trademarks and Copyrights. Its team was thus the pioneer in developing an indigenous web based software for IP Management. The firm created a new software DDfact , which manages the portfolio of client virtually.

日系企業に対してコメント.

In 2017 Royzz & Co restructured to become a full-service law firm. It is headed by its founder and managing partner, Ms Mahua Roy Chowdhury. The restructuring has resulted in the expansion of its practice areas and, accordingly, the induction of new partners in various domains. Mr Sanjay Visen (litigation), Mr. Ajit Raul (Patents), Mr Rakesh Parik (corporate, M&A and tax) and Mr Dhaval Shah (real estate and project finance) and Mr.Suresh Balakrishnan (Insurance-OfCounsel). The firm has its offices in Mumbai, Delhi, Chennai and Pune, and the fifth additional office in Mumbai (Fort area) for supporting its litigation practice. The firm is skilled in commercial dispute resolution and technology transaction while retaining its core strength in IP including Patent drafting and prosecution. The firms practice have vast experience in 'India entry' and supports in all logistics for the same.

- We continue to be the largest Intellectual Property law firm in India, representing around 2800 clients based in 50 countries.
- In Patents, we have core competence in the fields of Electronics, Metallurgy, Machines, Pharmaceuticals and Biotechnology.
- We maintain the only Proprietary Database in India for Patents. We can conduct Novelty, Infringement, Freedom to Operate and State-of-the-Art searches, covering Patent and non-Patent literature in all areas of technology.
- We have the 14 trained patent attorneys including 6 lawyers, handling the most number of patent prosecution matters, in a year. (4000 in 2018)
- We have a high grant rate of 95% in respect of applications prosecuted by us.
- We also file the largest number of Design applications.
- We have offices in all cities where branches of the Indian Patent Office are located and are able to handle filing and prosecution of patent applications at any Patent Office branch, as per the choice of our clients.
- In Trademarks, we are specialists in registrability and freedom to use searches and opinions, prosecution of National applications and International Registrations designating India, oppositions, cancellations and appeals, customs registration and proceedings and trademark litigation.
- Our fees are very reasonable and cost effective. All our costs are rationalized and fixed. We do not charge extra for any incidentals such as postage, courier, photocopying, banking, secretarial overtime, document preparation, archiving and such miscellaneous costs.

We are greatly respected by the Indian IP Office for the depth of our knowledge and ethical business practices.

日系企業に対してコメント.

We have traditionally represented Japanese companies for over 42 years. We understand the special requirements of Japanese companies, very well. We continuously advise and send suggestions to the Government of India to improve the IP system in India. We have visited Japan many times, and conducted Seminars and Presentations on developments in Indian Patent Law and Practice from time to time. Representatives of at least 8 to 10 Japanese companies, Associates and Associations visit our head office in Calcutta, every year.

We are one of the highest filers of Patent & Design applications consistently logging about 15% of the total Indian filing in these two areas of IPR for the last several years. Our success ratio of filing to grant in all three areas in IPR-Patent, Design & Trademark is one of the highest in India. Most of the opposition handled by us in all the three form of IPR during the last 3 years have been decided in favour of our clients.

We regularly handle FTO & Patentability Searches, Drafting, Filing, Prosecution, Licensing relating to all IPR rights in India, including contentious IP matters like opposition, invalidity action & infringement proceedings.

日系企業に対してコメント.

De Penning & De Penning offers a complete gamut of services covering all areas of intellectual property law with wide experience and expertise since 1856.

We operate across India through offices in Chennai, Kolkata, Mumbai and Delhi allowing easy liaising with the Patent/Trademark Offices

We are also associated with major foreign law firms in order to provide clients with intellectual property assistance worldwide.

We have a professional team of well qualified and experienced lawyers and patent attorneys supported by numerous paralegal teams, as well as technical staff to ensure a superior standard to all our clients.

We operate on a state of the art proprietary IT backbone, benefiting from an extensive in-house database and utilising the latest technology, all overseen by a dedicated team of technical assistants and IT specialists, allowing our attorneys, legal assistant and paralegals to provide the best available service across our wide range of services

With a client roster containing some of the biggest names in business from highly diverse fields and numerous Fortune 500 companies both in India and from around the world, our experience in the field and sheer operational expertise set us apart and enable us to provide a world-class service.

We have special team(s) who only doing such works i.e. different type of search for Patents and Trademarks.

We have special team who only works on IP watching. Once the case is entered in our database we will watch on it and make aware the clients when any type of infringement action is noticed.

We provide such watching services for Trademarks at free of cost.

We have our in-house developed software in order to manage complete portfolio of IP.

We have special team of IP licensing too who only work related to it and they have immense knowledge of their technical field too.

日系企業に対してコメント.

After doing such survey the key points have to be informed to all those associates within time who have provided their valuable suggestions and participated in such type of survey.

And after studying such laws of India the Japanese associates have to make available such laws in public domain so the Japanese companies can easily understand the Indian Law in a specific manner and no one can destruct them in wrong direction or misguide them.

Fox Mandal is one of India's oldest and most-respected full service law firms. With over 10 full-fledged offices and various representative offices across India each practicing all facets of law, Fox Mandal is regarded as a truly Indian law firm.

We advise a wide range of clients, including Fortune 500 companies, large and medium multinationals, Indian business groups, emerging companies, public sector organizations, government, and educational institutions. We also work with individuals and families.

We make it easier for our clients to successfully navigate the maze of complex and rapidly-changing law in a world that is being continually transformed by globalization, technology and a blurring of conventional boundaries.

Our team of over 200 fee earners works diligently, and collaboratively to be a "trusted advisor" to every client we service.

InvnTree is a thought leader in the Indian patent services landscape. Ever since its inception, our Company has strived to improve the patent consulting space in India by using avant-garde strategies.

InvnTree enjoys a significant market share in patent and trademark prosecution, having catered to 603 clients across 34 countries by the end of 2017, and continues to grow year after year. Our Company has shown sustained growth by nurturing and retaining what we consider our most valuable asset, our human resource, and encouraging them to be at the forefront of Indian patent consulting.

日系企業に対してコメント.

InvnTree's advanced expertise in patent and trademark prosecution is highly regarded by foreign IP firms. Our monthly newsletter EmbraceIP reaches over 30,000 subscribers worldwide, which by itself is a testimony to our expertise.

InvnTree furthered its position as thought leader in patent and trademark prosecution by the development and introduction of a revolutionary proprietary artificial intelligence tool, OptiResponse, which exponentially increases the chances of having patents and trademarks granted in India.

We have been consistently serving many of the Fortune 1000 companies, start-ups and law firms by providing technology intelligence, assisting in strategic alliances, and managing their intellectual property assets through our affiliates.

Our solution covers the complete technology/product life cycle, from conception till commercialization. These solutions include R&D / Innovation Management, In-licensing Support, Go-to-market Strategy, Out-licensing, Product Development Support, Competitive Intelligence, Due-Diligence, Deal-Structuring & Negotiation, Opportunity Assessment, Business Plan Review, Patent & Trademark Prosecution, Portfolio Optimization, Litigation Support, and Prior-art Search.

The technology and patent research are further accelerated by in-house developed product marketed by XLPAT Labs. XLPAT is the world's largest and most intelligent technology platform that uses Artificial Intelligence, cognitive computing and machine learning algorithms to turn patent, scientific literature, litigation, and other related data points into actionable business, research and technology insights. Using our breakthrough deep learning algorithms, we have revolutionized technology development, R&D functions and business analytics such as mergers, acquisition, technology licensing and patent searching. XLPAT further automates multiple processes (such patentability, invalidity, EoU) of patent search to accelerate the process of patent analysis.

日系企業に対してコメント。

Talwar Advocates have been providing comprehensive set of solutions related to prosecution and litigation for more than 10 years. We have a great experience of working with the top Japanese companies and developed a great understanding of the working by the Japanese Companies. The team at Talwar Advocates not only believes in getting patent granted but valuable and commercially exploitable patents. Further, we thoroughly discuss with clients about their objective before finalizing their IPR strategy. Furthermore, we have technology team in-house, therefore, all the work is managed within organization.

XLPAT, an affiliate to Talwar Advocates has already established its credibility in Japanese market through its innovative solutions.

In nutshell, we offer a complete set of solutions under one stop. Ranging from patent portfolio evaluation to licensing programs for specific IP monetization needs, we not only assist in getting patents granted but also provide various commercialization strategies.

<p>得意分野(総合 or 知財)</p>	<p>Anand and Anand is a full-service IP law firm, providing end-to-end legal solutions covering all cross-sections of Intellectual Property and allied areas. The firm is professionally managed by a Partnership board comprising 27 Partners and 4 Directors, supported by a management team comprising a CEO, CFO and CIO. The firm currently employs over 300 people, including over 100 qualified attorneys / engineers. The firm has offices based in New Delhi, Noida, Chennai and Mumbai. The firm’s clients consist of several large multinational and Indian companies representing a broad spectrum of industries, including healthcare, electronics, consumer goods, industrial goods, automobiles, wind energy, technology, financial institutions, hospitality and entertainment. The firm has an extensive intellectual infrastructure in all aspects related to trademark registrations, copyright registrations and IP monetisation, as well as in-licensing and franchising. The firm also has an in-house anti-counterfeiting and anti-piracy team, dedicated to providing clients with proactive and robust legal protection for safeguarding their brand identities in the commercial space.</p> <p>Anand and Anand is a leading firm in the IP field. Its expertise is widely acknowledged in addressing complex IP challenges of all types. It services a diverse portfolio of clients in conventional IP areas such as trademarks, patents, designs, trade secrets and confidential information, as well as in expanding areas of intellectual property such as domain names, media and entertainment law, information technology and ecommerce, technology transfer and internet and privacy laws. Anand and Anand specialises in copyright in media and entertainment law, and represents authors, musicians, software programmers, artists, designers and many others from the fraternity of copyright owners, as well as collecting societies.</p> <p>The firm has multi-disciplinary practice and provides competent and personalised advice on all aspects of core conventional intellectual property laws as well nonconventional IP mandates.</p>

	<p>We regularly deal with protection of IP and prosecution of contentious IP matters in different forums including the Courts at all levels, the Patent Offices, the Trademark Offices, the Design Office and the Intellectual Property Appellate Board, and the WIPO and National Internet Exchange of India.</p> <p>We balance commercial realities with legal pragmatism and draw on our well-honed expertise and instinct in the field, coupled with a profound understanding of intellectual property management in India. The firm has a keen interest in innovation and offers creative solutions that tackle the root and not merely the symptoms of a problem.</p> <p>Culturally the firm thrives on challenges, creative thinking and constant improvement of its legal knowledge and skills. The spirited character of the firm is the keystone of its growth and expansion into new areas of IP which have been embraced with ease and zest. The firm remains committed to setting standards of excellence in the field and of impeccable services to clients.</p> <p>We are proud to assert that we represent over forty brands out the top hundred biggest brands in the world.</p>
