MESSAGE FROM ORGANIZERS

FDI from Japan to Vietnam recorded the highest amount in 2023. The Vietnam-Japan relationship has become deep and tight, and both are important partners for each other. In 2025, the world economy faced a rare upheaval in recent years, forcing global enterprises to reconsider their supply chain strategies.

Under the current circumstances of increasing global economic uncertainty, the importance of reinforcing supply chain resilience increases. To this end, further progress in local procurement is essential. Raising the local procurement rate not only contributes to the management stability of Japanese enterprises, but also strengthens the Vietnam-Japan partnership and supports the development of a more robust Vietnamese economy.

According to a survey conducted by JETRO in 2024, 50.9% of Japanese FDI companies expressed their intention to expand local procurement.

However, the current local procurement rate of Japanese companies in Vietnam remains at 36.6%. Furthermore, the procurement rate of raw materials and parts from Vietnamese suppliers is only 15.7%, which is still lower compared to Indonesia (25.6%), Malaysia (23.8%), and Thailand (25%).

In this context, we are organizing the 11th Supporting Industry Exhibition (SIE) to contribute to improving the local procurement rate of Japanese companies and enhancing the supply capacity of Vietnamese suppliers. This exhibition will feature 20 Japanese companies and 20 Vietnamese companies. We hope this event will bring new opportunities for both exhibitors and visitors.

The event is implemented with the high consensus of the two countries' leaders, within the framework of the signed Vietnam-Japan Economic Partnership Agreement (VJEPA) by both governments in 2008. In addition, it was also one of the themes under the Vietnam - Japan Joint Initiative in the new era which has been started since March 2024.

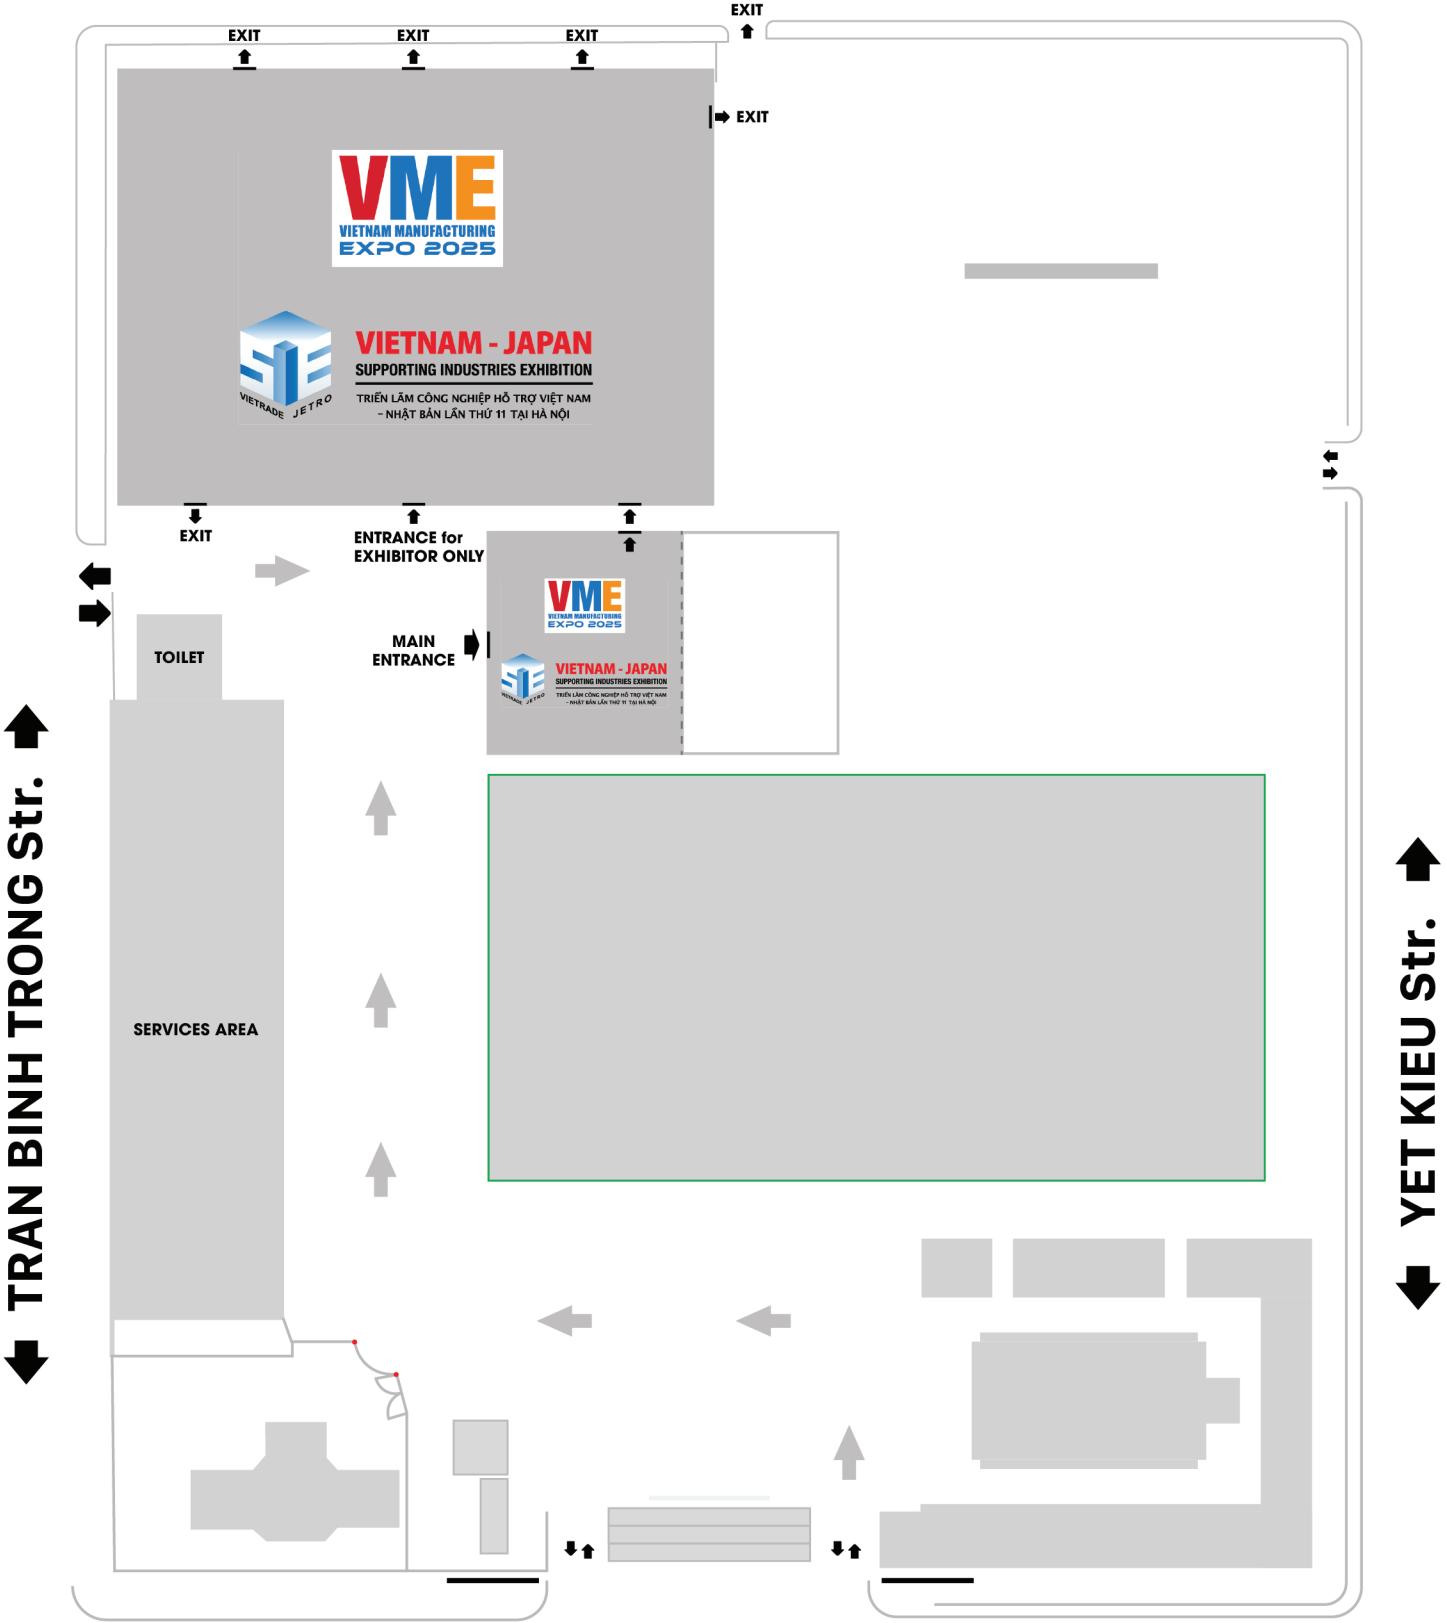

We wish all companies good health, success, and many promising encounters.

August 2025

VIETNAM - JAPAN EXHIBITION ON SUPPORTING INDUSTRIES

VIETNAM - JAPAN EXHIBITION ON SUPPORTING INDUSTRIES

The floor plan shows a large exhibition hall with various booths arranged in a grid-like fashion. The booths are color-coded: green for Vietnamese companies, pink for Japanese companies, and orange for the JETRO-Vietrade area. The central area is a large open space. The entrance for staffs only is located at the bottom left, marked with a blue arrow. The entrance for the general public is at the bottom right, marked with a blue arrow. The booths are labeled with their respective company names and booth numbers.

Y.H SEIKO VIETNAM JSC

With rapid globalization, our mold technology has become necessary in Southeast Asia, so we decided to expand into Hanoi to supply Japanese-level molds. In August 2011, we established YHV (Y. H SEIKO VIETNAM, JSC.).

Based on the trust and accumulated technology we have cultivated in Japan, we will strive to further develop our technology and create new value, and we intend to disseminate this to the world from Hanoi.

From now on, we aim to be a company and develop people in Vietnam that can contribute to society through the Japanese spirit of manufacturing and to be a creative company in both "manufacturing" and "heart."

- Precision Machining
- Welding
- Surface treatment, Heat treatment

SELLING ITEMS

Product name: Deep Drawing Parts
Use for: Automotive, Motorbike, Lawn Mower
Minimum lot: 5000
Material: Steel, Stainless Steel

Product name: Hot Forging Parts
Use for: Motorbike
Minimum lot: 30000
Material: Steel

Product name: Rear Swingarm
Use for: Motorbike
Minimum lot: 5000
Material: Steel

Product name: Hand tools
Use for: Worker, DIY
Minimum lot: 5000
Material: Steel (50CrV), Aluminum

Product name: Dee Ring Bar
Use for: Safety Accessories components
Minimum lot: 10000
Material: Steel (4010)

COMPANY PROFILE

COMPANY NAME	FUJI MACHINERY CO.,LTD
ESTABLISHMENT YEAR:	2.017
CHARTER CAPITAL:	765.000 USD
NUMBER OF EMPLOYEES:	40-50
FACTORY ADDRESS in Vietnam:	Thach Khoi Industrial Cluster 1, Thach Khoi Ward, Hai Phong City, Vietnam.
FACTORY SPACE (M²):	2000
MAIN PRODUCTS in Vietnam:	Machinery and industrial automation equipment. Aluminum and zinc die casting
QUALITY CERTIFICATES:	ISO 9001:2015
OPERATIONAL CRITERIA:	We do our best

SELLING ITEMS

Product name: Machinery and industrial automation equipment.
Use for: used in industries like automotive, electronics, and manufacturing to improve efficiency and consistency.
Minimum lot: 1
Material:

Product name: Musashi automated fluid dispensing system
Use for: high-precision application of adhesives, solder pastes, and various fluids
Minimum lot: 1
Material:

Product name: SIC marking machine
Use for: permanently mark texts, serial numbers, logos, or data codes on metal and plastic surfaces
Minimum lot: 1
Material:

Product name: AGV-operated vehicle
Use for: Transport materials, components, or finished products within factories, warehouses
Minimum lot: 2-5
Material:

Product name: Aluminum die-cast parts
Use for: automotive and motorcycle components
Minimum lot: 1000
Material: Aluminum

Fuji Machinery specializes in the design, manufacturing, and installation of customized automation machinery. With a team of highly experienced engineers, Fuji is confident in delivering tailor-made systems that meet demanding technical requirements while optimizing QCD (Quality – Cost – Delivery) performance. Our products are not only durable and easy to maintain, but also designed for future upgrades to support production scale-up when needed.

Main Products:

- Fully and semi-automated production lines
- Assembly, inspection, and parts feeding machines
- Jigs and specialized machines

We offer custom design, fabrication, and installation of automation machinery, including integration with industrial robots, AGVs, and more.

INNOTEK JOINT STOCK COMPANY

INNOTEK JOINTSTOCK COMPANY was established on May 23, 2011 with legal capital 6,000,000USD. INNOTEK factory was built in Que Vo II IP, Bac Ninh province and started production in January 2012.

Over 12 years of establishment and development, Innotech has been a reliable partner of leading companies in the field of automobile-motorcycle manufacturing and supporting industries.

With the motto of always meeting the best requirements and satisfying customers, Innotech has invested in completely new imported machinery lines from Japan and Taiwan such as Seyi stamping machines from 25 tons to 300 tons. There are automatic feeders, advanced welding robots of Yaskawa, CNC wire bending machines, CNC lathes ... and a team of highly skilled and passionate employees. Therefore, Innotech can meet orders with strict technical requirements, product quality as well as orders with large quantities.

Come to INNOTEK, customers will be satisfied with the quality product, price and service sales and after-sales services.

PMA is based in Vietnam and our core businesses are machine design and manufacturing, automated equipment development, and CNC parts processing. We are particularly skilled at high-mix, small-lot production and short delivery times (as fast as within three days), and our flexible response and reliable quality have earned us a high reputation as a reliable offshore manufacturing partner from many Japanese companies. We also provide consistent support from prototyping to mass production, helping to optimize costs, delivery times, and quality. We will continue to fully support our customers' manufacturing with our high-quality, fast services.

JAPAN EXTERNAL TRADE ORGANIZATION

Organization Profile:

Japan External Trade Organization is a Governmental-related Organization under the Ministry of Economy, Trade and Industry of Japan (METI). With 49 regional offices throughout Japan and 76 overseas offices (56 countries) in the world, JETRO's main function is to promote mutual trade and investment between Japan and the rest of the world. In the 21st century, JETRO has shifted toward strengthening foreign direct investment (FDI) into Japan and helping Japanese firms, especially SMEs expand their businesses into overseas markets.

With the aim of contributing to further development of economic relations between Vietnam and Japan and to the achievement of the prosperity in the region, the Representative Office in Hanoi has been conducting and involving in many various activities that brought mutual benefits to the economy and society of the two countries since its establishment in 1993

Organization Activities:

- Offer expert consultation with the latest legal writings and information relating to tax, customs, labor and investment procedures to Japanese investors who wish to invest or doing business in Vietnam,
- Receive Japanese study missions to Vietnam for investment and business opportunities in Vietnam,
- Support export promotion of Japanese products and services in various areas (specifically, agricultural, aquatic products, food, consumer goods, medical supplies, and facilities to Vietnamese market by holding online and face-to-face business matchings between Japanese suppliers and Vietnamese buyers,
- Organize exhibition on supporting industries to match Japanese buyers with Vietnamese sellers,
- Hold workshops guiding new laws and regulations on Vietnam's business and investment issues for existing Japanese entrepreneurs who are operating in Vietnam,
- React to inquiries from local and Japanese companies seeking information about potential partners,
- Assist local companies with the establishment of business bases in Japan for the first time and the expansion of operations for those already present.
- Recommend Vietnamese potential startups to Japanese businesses by arranging connection of exchanges between the concerned parties in different subjects,
- Compose training programs on Japanese business model knowledge for local universities' students,
- Make a comparative survey of investment-related costs in major cities in the region and in Asia every year,
- Conduct an annual survey of current operation of the Japanese-affiliated firms in Asia and Oceania..
