JETRO

Japan External Trade Organization

Mr. KOJI TAKIMOTO
Chief Representative
JETRO Ho Chi Minh City

Dear visitors to Supporting Industry Show 2018 in Ho Chi Minh City.

This event has a history for more than 10 years and we, JETRO continuously contribute to realize, promote inter exchange between companies. This year we see total visitors will be over 14,000 against exhibitors which include 33 from Japan.

Now, there are nearly 2,500 Japanese companies in Vietnam, and more than half of them are manufacturing industries. However, unfortunately, most of them tend to import parts from Japan or China, assemble them in Vietnam, and export finished products to overseas. According to "Results of JETRO's 2017 Survey on Business Conditions of Japanese Companies in Asia and Oceania", local procurement rate in Vietnam was only 33.2%.

In contrast, government of Vietnam is eager to foster supporting industry which plays as a grass-root of manufacturing industries such as automobile, home electronics, internet devices, etc. and defines the quality of such final consumer products.

In order to support and strengthen needs and efforts above, JETRO will organize "Supporting Industry Show" within METALEX Vietnam 2018, to be held on 11 – 13 October 2018 at SECC. We believe that business matching does not only lead to opportunity, but also lead to strengthening competitiveness in the market.

On behalf of JETRO Ho Chi Minh City, I wish all manufacturers to have productive experience at this show and forge many great business relationships.

ORGANIZER
INVESTMENT AND TRADE PROMOTION CENTRE
OF HO CHI MINH CITY (ITPC)

Mr. PHAM THIET HOA
Director
 Investment and Trade
 Promotion Centre of Ho Chi
 Minh City (ITPC)

Developing Supporting Industries in Viet Nam entirely and in Ho Chi Minh City particularly not only contributes to the process of industrialization and modernization, but targets to participate in domestic and global value chain as well to enhance the competitiveness of Vietnamese enterprises and be able to support to other economic fields is one of strategic missions to implementing effective. Since then Ho Chi Minh City gradually become a major Centre of economic, trade, finance, science and technology of Viet Nam and South East Asia in the near future.

Investment and Trade Promotion Centre of Ho Chi Minh City (ITPC), The External Trade Organization of Japan (JETRO) in Ho Chi Minh City, The Reed Tradex Company - Thailand and Ho Chi Minh City Centre of Supporting Industries development (CSID) are collaboration to organize the "Supporting Industry Exhibition 2018" from 11th Oct to 13th of

October, 2018 at the Saigon Exhibition and Conference Centre (SECC). This is an event of great significance for manufacturing industry and supporting industry enterprises and of opportunity for enterprises to approach the most advanced machinery, updating smart business technology, discovering effective metal processing solutions, as well as upgraded manufacturing for value added products. Simultaneously this is also a chance that Vietnamese and foreign enterprises find out appropriate partners and opportunities for future cooperation.

ITPC desirably introduces this directory to supporting industry, especially small and medium-sized enterprises to improve the capacity and efficiency of business and to contributively develop supporting industries to become one of major and strategic industries of Ho Chi Minh City and Viet Nam.

Ms. LE NGUYEN DUY OANH
Vice Director
 Center of Supporting Industry
 in Ho Chi Minh City (CSID)

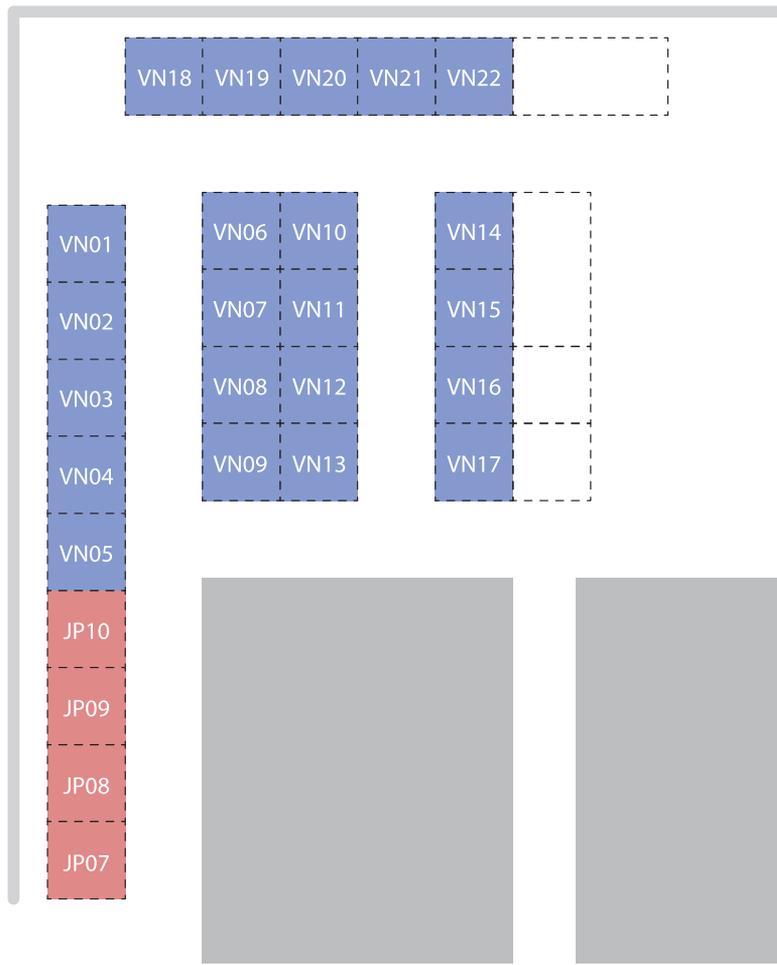

Greetings to the visitors of Supporting Industry Show 2018 in Ho Chi Minh City.

Supporting Industry Show 2018 will be good chance for manufacturers in Viet Nam to promote their capacity and access to the supply chain in the area.

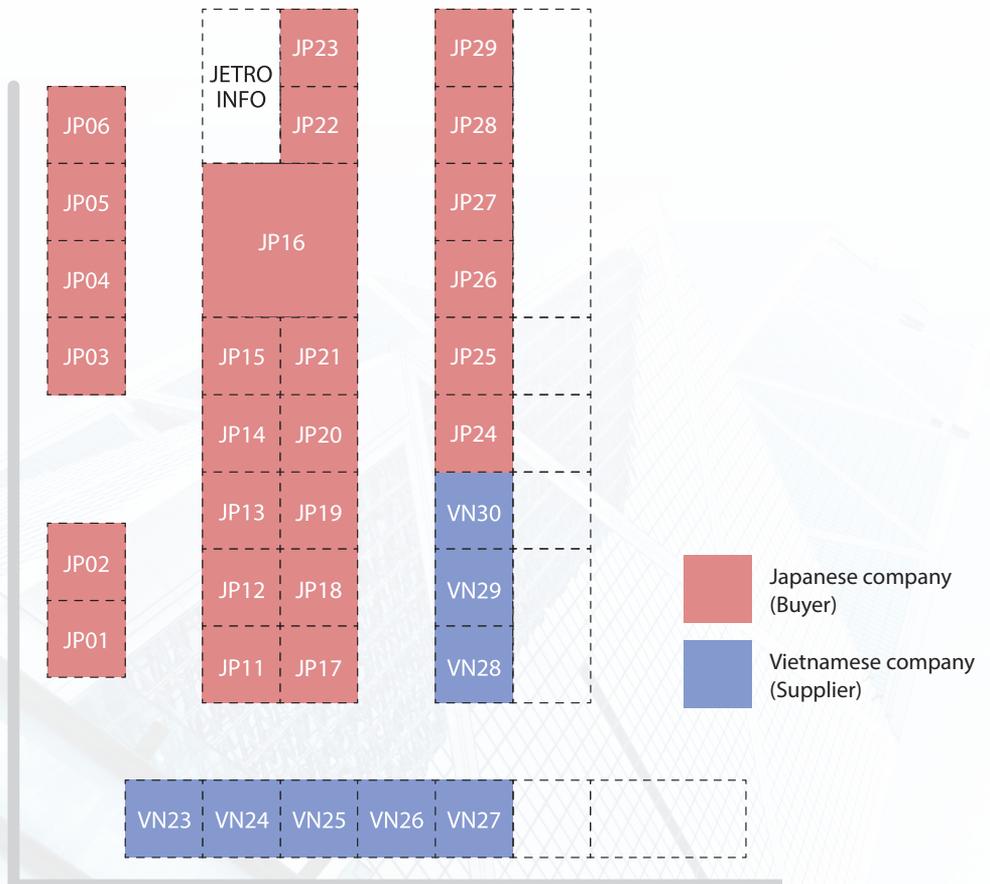

Vietnamese supporting industry is trying to improve their supplier capacities by innovation in production from the companies, together with strong commitment to provide effective support programs from the government.

We do believe that setting up business connection in supporting industries

between Vietnamese companies and Japanese manufacturing is long – term strategy. And Center of Supporting Industry in Ho Chi Minh City (CSID in brief) is belong to Department of Industry and Trade in Ho Chi Minh City, has a pleasure to be accompanied and positive support to Vietnam's supporting industry companies to improve the environment of production, strengthen supplier capacity and be confidence in business matching with Japanese companies at METALEX 2018.

PURCHASING ITEMS

Product name: Carton box
Use for: packing motors and parts
Minimum lot: 100pcs/lot
Material: Paper

Product name: PCB
Use for: Assembly stepping motor and cooling fan
Minimum lot: 1,000/pcs
Material: Based on drawing (CEM-3, FR-4, etc)

Product name: Pinion
Use for: Assembly stepping motor
Minimum lot: 1,000/pcs
Material: S45CF

Product name: Leaf spring
Use for: Assembly stepping motor and cooling fan
Minimum lot: 10,000/pcs
Material: S K85M

Product name: Steel bar
Use for: Assembly stepping motor
Minimum lot: 1 ton
Material: SUS303CU

JP16

NIDEC TOSOK (VIETNAM) CO., LTD.

We are able to develop control valve bodies, control solenoid valves and spool valves that are at the heart of Automatic Transmissions (AT) and Continuously Variable Transmissions (CVT).

PURCHASING ITEMS

Product name: Rubber feet with springs
Use for: Part feeders
Minimum lot: 100/pcs
Material: Steel and rubber

Product name: Electromagnetic coil
Use for: Part feeders
Minimum lot: 100/pcs
Material: Plastic moldings and copper wires etc.

Product name: Surface treatment of Molybdenum disulfide
Use for: Motor brake
Minimum lot: 100/pcs
Material: Casting

Product name: Brake Hub
Use for: Motor brakes
Minimum lot: 100/pcs
Material: Steel

Product name: Special tool
Use for: For clamp element processing
Minimum lot: 100/pcs
Material: Special steel

We are unequalled in the ability to provide medium-volume parts for the fluid power control equipment industry, such as hydraulic, pneumatic and vacuum equipment, due to our fully integrated production/quality assurance system that covers every step from prototypes to finished products. We are mainly looking for local suppliers that can process precision parts with certain QC standard.

COMPANY PROFILE

JETRO

Japan External Trade Organization

Japan External Trade Organization is a Governmental-related Organization under the Ministry of Economy, Trade and Industry of Japan (METI). With about over 40 regional offices throughout Japan and over 70 overseas offices in the world, JETRO's main function is to promote mutual trade and investment between Japan and the rest of the world. In the 21st century, JETRO has shifted toward strengthening foreign direct investment (FDI) into Japan and helping Japanese firms, especially SMEs expand their businesses into overseas markets. With the aim of contributing to further development of economic relations between Japan and Viet Nam and to the achievement of the prosperity in the region, JETRO Ho Chi Minh office has been conducting and involving in many various activities that brought mutual benefits to entrepreneurs of the two countries since its establishment in 2000.

ORGANIZATION ACTIVITIES

- Offer expert consultation with the latest legal writings and information relating to tax, customs, labor and investment procedures to Japanese investors who wish to invest or do business in Viet Nam.
- Receive Japanese study missions to Viet Nam for investment and business opportunities in Viet Nam.
- Provide Japanese investors particularly SMEs with office space and facilities free of charge to promote their business and investment in Viet Nam.
- Hold business matching between Japanese and Viet Nameese enterprises in various fields.
- Hold workshops guiding new laws and regulations on Viet Nam's business and investment issues for existing Japanese enterprises who are operating in Viet Nam.
- React to inquiries from local and Japanese companies seeking information about potential partners.
- Create business chances for Viet Nameese importers by inviting them to visit specialized trade fairs and production bases in Japan in fields of foodstuff, beverage, agriculture and supporting industries.
- Make a comparative survey of investment-related costs in major cities in the region and in Asia every year.
- Conduct an annual survey of current operation of the Japanese-affiliated firms in Asia and Oceania.
