ベトナム南部 日系・外資サプライヤーリスト発行にあたって

ジェトロホーチミン事務所では、ベトナムで活動する日系企業の現地調達率の向上のため、日系企業の求める品質や納期といったニーズに応えられる可能性のある、ベトナム南部のローカルサプライヤー情報を『ベトナム有望企業（南部ベトナム編）』に収録し提供しています。

他方、日系企業間の取引、もしくは外資系製造企業からの調達も選択肢として存在しており、ベトナム南部の日系および外資系サプライヤーとのさらなるマッチングの機会と精度の向上を目的に、本リストを提供いたします。本リストが、皆様のビジネスマッチングの一助となれば幸いです。

2026/7/1
日本貿易振興機構(ジェトロ)
ホーチミン事務所

- *本リストの情報は、ジェトロから送付した調査票への各社からの回答に基づいています。
- *各企業の信用調査は一切行っておりません。
- *本リストの活用にあたっては各社の責任と判断で行っていただくこととなり、

Company Name	English	ABE Industrial Vietnam Co., Ltd.
	Vietnamese	Công ty TNHH ABE Industrial Việt Nam
	Abbreviation	AIV

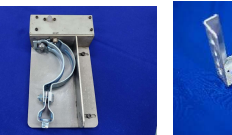

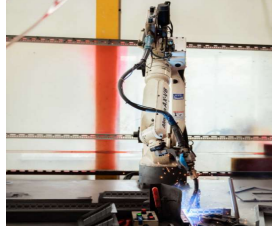

ABE Industrial Vietnam Co., Ltd. – a metal processing solution provider in Binh Duong, Vietnam. As a wholly owned subsidiary of ABE Seisakusho Co., Ltd. (Japan), AIV began as an OEM production base for construction metal components and has since evolved into a trusted manufacturing partner serving global industrial markets. From a OEM supplier, AIV now not only delivers ONE-STOP metal processing solution, but also grow into a flexible manufacturing platform with expanded customizable engineering, fabrication, and customized metal forming machinery production to meet boarder demand of manufacturer customers.

Main Products

No.	Product Name	No.	Product Name
1	Multiple angle bracket	5	Inspection jig
2	Pipe hanger supports parts	6	Souvenirs (made of steel)
3	Delivery box	7	Metal forming machine (customizable)
4	Interior / Exterior	8	Others (based on requirement)

Company Name	English	TAKASHIMA METAL PRECISION VIETNAM COMPANY LIMITED
	Vietnamese	CÔNG TY TNHH TAKASHIMA METAL PRECISION VIETNAM
	Abbreviation	TMPV

We are a company that manufactures and sells screws and metal processing parts. Our Vietnam base was established in Long Duc IP of Dong Nai in 2024. We mainly sell metal processed products such as standard screws, cutting, cold heading, hot forging, pressing, and forming. We manage and guide our suppliers, and also implement thorough quality control in-house to support safe and secure local procurement. We provide total support for our customers' procurement activities with our extensive network and knowledge.

	Vietnamese	CÔNG TY TNHH KYORITSU BUSSAN VIỆT NAM
	Abbreviation	KBVN

We offer a fully integrated in-house manufacturing system covering plastic injection molding, printing, painting, and assembly.

With strong expertise in high-quality exterior components featuring decorative finishes, we specialize in working with a wide range of engineering resins such as TPE, PC, ABS, and POM.

Furthermore, starting from fiscal year 2026, we have enhanced our production capabilities by introducing new equipment capable of molding glass-filled materials, enabling us to meet more advanced and demanding product requirements.

	Abbreviation	

With over 20 years of experience in manufacturing injection molds and plastic injection molding and assembly, we are committed to delivering high-quality products that meet customer expectations. Our goal is to ensure complete customer satisfaction by providing reliable, precision-engineered molds and plastic components at highly competitive and reasonable prices.

Main Products

No.	Product Name	No.	Product Name
1	injection mold	5	plastic jig
2	electronic parts	6	components for cabinet-kitchen
3	plastic cover	7	curtain accessories
4	mount & cradle	8	blown plastic products

Category

No.	Category Name	No.	Category Name
1	Mould for plastic	5	Electric/Electronic Parts
2	Press	6	Blow mold
3	Plastic molding	7	aluminum mold
4	Mould for press	8	

Machinery and equipment

Machine tool Name	Type	Number	Maker	Country of manufacture
Injection machine	From 50tons to 600tons	10	FU CHUN SHIN & SHUENN JAAN	Taiwan
EMD Machine	ZNC-400, ZNC-500, GENSPARKM50E, M30E, M30E	6	AID, Genspark, Abner	Taiwan
Milling CNC Machine	A-800, 1000, 1150, 1500	4	EAST LION, AGMA, TAKUMI	Taiwan
Milling Machine	KR - B4H, SHCM, YSM - 26SHB, YSM - 15SS	4	Sun-Chen, KingRich	Taiwan
Grinding Machine	FSG - 618 & SM1	4	AFUYUAN, C&Y, CIVIA	Taiwan, Korea
Drilling Machine	CSR - 1300	2	Everox, Dong Sahn Jenix, CHII SHEN	Taiwan, Korea
coordinate measuring Machine	2.5D & 3D	2	CROMA & VMS	Taiwan
Matching Mold + Cnc wire cutting	JC -4050Z	2	J&C MACHINERY	Taiwan

Company Name	English	BIC JAPAN CO., LTD.
	Vietnamese	CÔNG TY TNHH BIC JAPAN
	Abbreviation	BIC JAPAN

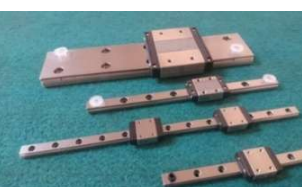

BIC JAPAN Co., Ltd. is a Japanese-invested company operating in Vietnam Singapore Industrial Park (VSIP), Binh Duong Province, Vietnam. The company was established under the Investment Registration Certificate issued by the Vietnam Singapore Industrial Park Management Board. BIC JAPAN specializes in precision mechanical processing and manufacturing of precision parts and components used in the semiconductor, and CNC automation industries. In addition, the company processes products made from steel, iron, aluminum, and plastic, mainly for the Japanese market, with a strong commitment to high quality and Japanese technical and management standards.

	Vietnamese	CÔNG TY TNHH EQUAL VIỆT NAM
	Abbreviation	EQUAL VIETNAM

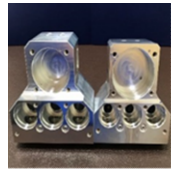

Established in August 2017, Our company is manufacturing high precisions parts from Aluminum, Stainless steel, Plastic. We can support product development, responding from 1PCS to mass volume with reasonable cost and delivery on time. We are not only making precision parts but also making and delivering satisfaction to customers!

Company Name	English	Maruei Vietnam Precision Co.,LTD
	Vietnamese	Công Ty TNHH MARUEI VIỆT NAM PRECISION
	Abbreviation	MVP

Maruei Vietnam is an EPE (Export Processing Enterprises) company that performs machining of steel, stainless steel, and aluminum. We source cold-forged materials from Japan and bar material from Vietnam and the ASEAN region. We process the materials in-house and sell our products to Asia, North America, and EU countries. Recently, they have also been selling automated equipment and IoT systems developed in-house.

Company Name	English	CHUBU ENGINEERING VIETNAM CO., LTD
	Vietnamese	CÔNG TY TNHH CHUBU ENGINEERING VIỆT NAM
	Abbreviation	CEC

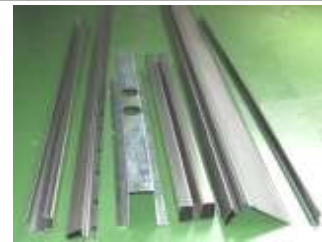

Roll forming is a method of bending by passing metal between circular dies. By taking a multi-stage configuration, it is possible to mold to the desired cross-sectional shape. There are the following advantages compared to generally used press forming. 1. High processing speed ; 2. Product length can be adjusted freely ; 3. Continuous production with the same product shape

Company Name	English	V-Stainless Steel CO.,LTD
	Vietnamese	CÔNG TY TNHH V-STAINLESS STEEL
	Abbreviation	V-SUS

Established in November 2013, V-Stainless Steel Co., Ltd. (VSUS) is a stainless steel processing and distribution company based in Dong Nai Province, Vietnam, with a branch in Hung Yen Province covering the northern market. With a total inventory of 2,050 MT sourced from approximately 50 Japanese and overseas manufacturers, we offer an extensive lineup of stainless steel sheets, coils, pipes, bars, and structural materials processed to Japanese quality standards.

As of 2025, our annual shipment volume has reached 2,872 tons with a cumulative customer base of over 830 companies across Vietnam.

Eguchi Seiko Die-Cast Company, established in 2014 and headquartered in Japan, specializes in providing the following services:

- ✧ Zinc die-casting (manufactured in-house): Electromagnetic equipment, motor housings, automotive components, gear components, etc.
- ✧ Magnesium die-casting (manufactured in-house): Sensors, various types of housings, automotive components, precision equipment, etc.
- ✧ Aluminum die-casting: Projector components, motor housings, automotive components, etc.
- > Products meet ISO 9001 and ISO 14000 quality standards.

	Vietnamese	Công ty Cổ phần KATSURA Việt Nam
	Abbreviation	KATSURA VN J.S.C or KVN

Established in August 2011 in the Long Hau Industrial Park (formerly located in Long An Province, now part of Tay Ninh Province), Katsura Vietnam serves as the Katsura Group's strategic manufacturing and sales hub for LP gas supply equipment across the ASEAN region. Today, our business activities extend across a diverse range of fields, including LP gas and hydrogen-compatible supply systems, safety devices, combustion equipment, and equipment for commercial, industrial, and agricultural applications. In addition, we are actively engaged in system development that supports the rapidly advancing digital transformation (DX) era.
