Environment,
Energy & CleanTech

Zeroboard Inc.

"Zeroboard" is a software that allows companies to calculate, visualize, and reduce their supply chain GHG emissions simply by settings activity data or setting up data linkage.

Japan External Trade Organization

JETRO, or the Japan External Trade Organization, is a government-related organization that works to promote mutual trade and investment between Japan and the rest of the world. Originally established in 1958 to promote Japanese exports abroad, JETRO's core focus in the 21st century has shifted toward promoting foreign direct investment into Japan and helping small to medium size Japanese firms maximize their global export potential.
