

HS 4Digit	# of Companies importing from China	example of goods	Eligibility for SPECS (Potentially match, not guaranteeing the match)	Comments
8504	20	Inductor/battery/LED	A4 (Inductor) LEDs (B1) LED Chip (A1 and A2)	Electromechanical components such as Inductors for electronic applications are eligible under category A4 of SPECS. Batteries are not eligible under SPECS. LEDs are eligible under category SI(a) of SPECS. Also LED Chips fall under the category A1 (SMT components including LED Chips) of SPECS.
8501	17	Motor	A4 (micro motors, stepper motors, BLDC Motors)	Only specified motors i.e., micro motors, stepper motors and BLDC Motors for electronic applications are eligible under category A4 of SPECS.
8533	12	Resistor/Chip Resistor	A3 (Resistor) A1 (Chip Resistor)	Passive components such as resistors for electronic applications are eligible under category A3 of SPECS. Chip Resistors being SMT Components are eligible under category A1 of SPECS.
8536	11	Power Cable/ Power Cord/ Magnet Wire	A9 (USS/Data Cables, HDMI Cables)	Only specific cables i.e., USS/ Data Cables and HDMI Cables are eligible under category A9 of SPECS.
8532	10	Condenser/ Capacitor	A1 (SMT) and A3 (through hole)	Passive components such as capacitors for electronic applications are eligible under category A3 of SPECS. Chip Capacitors being SMT components are eligible under category A1 of SPECS. Condenser is not eligible.
8536	10	Fuse/Switch/Connector/Relay	A4 (relays, switches, Connectors)	Electromechanical components viz., relays, switches, connectors and fuses for electronic applications are eligible under category A4 of SPECS. These need to be mounted on a bare Printed Circuit Board (PCB) along with other active and passive components.
8542	110	IC (Integrated circuit)	GA	Semiconductor Integrated Chips (ICs) including Logic [Microprocessor, Microcontrollers, Digital Signal Processors (DSP), Application Specific Integrated Circuits (ASICs), etc.]; Memory; Analog/ Mixed Signal ICs, etc. are eligible under category GA of SPECS.
8534	18	PCB	A6 (PCB)	Printed Circuit Boards (PCBs), PCB Laminates, Pre-regs, Photopolymer films, PCB Printing Inks as well as Printed Flexible Electronics are eligible under category A6 of SPECS.
8541	18	Diode	B1	Discrete semiconductor devices including transistors, diodes, etc. are eligible under category SI(a) of SPECS.
8505	16	Magnet	A5	Magnets for electronic applications are eligible under category A5 of SPECS.
8511	16	Spark plug/ Magnet	A5 (Magnets)	Spark plugs are not eligible under SPECS. Magnets for electronic applications are eligible under category A5 of SPECS.
9031	16	Sensor (Temp. Pressure etc.)	A7	The complete system for sensing is not eligible under SPECS. However, the manufacturing of Sensor and Transducer elements for electronic applications would be eligible under category A7 of SPECS.
